Germany 1945-1990 A Parallel History:

Germany, 1945-1990 Jürgen Weber, 2004 **Born in the GDR** Hester Vaizey, 2016 The real life stories of eight East Germans caught up in the dramatic transition from Communism to Capitalism by the fall of the Berlin Wall and what they feel about life after the Wall Allied Internment Camps in Occupied Germany Andrew H. Beattie, 2020 Examines how all four Allied powers interned alleged Nazis without trial in camps only recently liberated from Nazi control *Visions of the End of the Cold War in Europe, 1945-1990* Frédéric Bozo, Marie-Pierre Rey, N. Piers Ludlow, Bernd Rother, 2012-03-01 Exploring the visions of the end of the Cold War that have been put forth since its inception until its actual ending this volume brings to the fore the reflections programmes and strategies that were intended to call into question the bipolar system and replace it with alternative approaches or concepts These visions were associated not only with prominent individuals organized groups and civil societies but were also connected to specific historical processes or events They ranged from actual thoroughly conceived programmes to more blurred utopian aspirations or simply the belief that the Cold War had already in effect come to an end Such visions reveal much about the contexts in which they were developed and shed light on crucial moments and phases of the Cold War *Twenty Cars that Defined the 20th Century* James Morrison, 2024-02-02 On the 29 June 1914 Archduke Franz Ferdinand was assassinated in Sarajevo triggering events leading to the outbreak of the First World War Less well known is that the car he was in was a borrowed Graf Stift Double Phaeton that the route was published in advance and the decision to lower the hood was only taken at the last minute As with the other events in this book the car played a central role yet its history is largely unknown These cars not only had their own stories in terms of design ownership and the role they played but they are also a way of telling the story of the events themselves they are literally a vehicle for history In this book James Morrison takes 20 cars involved in twenty key 20th century world events and examines their involvement and history to provide a new angle and fascinating insights **A History of Western Public Law** Bruno Aguilera-Barchet, 2014-12-31 The book outlines the historical development of Public Law and the state from ancient times to the modern day offering an account of relevant events in parallel with a general historical background establishing and explaining the relationships between political religious and economic events *Not-So-Special Relationship* Luca Ratti, 2017-03-08 Examines how German reunification and the end of the Quadripartite Agreement in 1990 impacted the AngloAmerican special relationship Luca Ratti offers new insights into the role of the Anglo American aspecial relationship in German reunification and examines the impact that Germanys reunification had on Anglo American and transatlantic relations Germanys unification in October 1990 was one of the most momentous events in modern European history and world politics since the end of World War II German unity ended the Cold War in Europe accelerated the collapse of communist regimes across Eastern Europe and the disintegration of the USSR in 1991 It also triggered NATOs transformation at the London and Rome summits of the Alliance and deepened Europes political and economic integration

US National Security, Intelligence and Democracy Russell A. Miller, 2008-07 This volume examines the investigation by the 1975 Senate Select Committee Church Committee into US intelligence abuses during the Cold War and considers its lessons for the current war on terror This report remains the most thorough public record of America's intelligence services and many of the legal boundaries operating on US intelligence agencies today are the direct result of reforms proposed by the Church Committee including the Foreign Intelligence Surveillance Act The Church Committee also drew attention to the importance of constitutional government as a Congressional body overseeing the activities of the Executive branch Placing the legacy of the Church Committee in the context of the contemporary debate over US national security and democratic governance the book brings together contributions from distinguished policy leaders and scholars of law intelligence and political science

The Fourth Reich Gavriel D. Rosenfeld, 2019-03-14 The first history of postwar fears of a Nazi return to power in Western political intellectual and cultural life

Brief summary of the complete frame of the German Question (1945-1990) Johann Albert Wiechers, 2020-02-25 At the moment of the publication of this book 75 years have passed since the defeat and beginning of the occupation of Germany by the victorious Allies and 30 years since the reunification of the country within restricted boundaries after 45 years of division I was born in the New World 20 years after the end of the war lived most of my youth with the reality of the division and witnessed the whole reunification process as a member of a family of German descent living outside Germany My interest in the subject plus several logical links to Germany a vision from abroad and obviously my knowledge of German helped me to start preparing in 1987 well before any possibility of reunification existed a legal thesis which unexpectedly even for me turned into reality with the fall of the Berlin Wall in 1989 and the reunification in 1990 I was able to deliver the final work my professional thesis personally into the hands of Federal President Richard von Weizsäcker during his state visit to Mexico in 1992 And shortly thereafter I received from him a very rewarding letter But just now after 30 years I am able to publish in English this reworked and updated version of my original thesis now as a history book I have tried to condense and explain the facts of 45 years of division so

Germans and foreigners can have a full and objective view of all the aspects historical political territorial and legal alike pertaining to the so called German Question during the period 1945 1990 I hope you enjoy it **France and the German Question, 1945-1990** Frédéric Bozo, Christian Wenkel, 2019-07-12 In the immediate aftermath of World War Two the victors were unable to agree on Germany's fate and the separation of the country the result of the nascent Cold War emerged as a de facto if provisional settlement Yet East and West Germany would exist apart for half a century making the German question a central foreign policy issue and given the war torn history between the two countries this was felt no more keenly than in France Drawing on the most recent historiography and previously untapped archival sources this volume shows how France's approach to the German question was for the duration of the Cold War both more constructive and consequential than has been previously acknowledged **Republics of Letters** Peter Kirkpatrick, Professor Robert Dixon, 2018-08-30 Republics of Letters Literary Communities in Australia is the first book to explore the notion of literary community or literary sociability in relation to Australian literature **Parallel Public** Sara Blaylock, 2022-03-01 How East German artists made their country's experimental art scene a form of counter public life Experimental artists in the final years of the German Democratic Republic did not practice their art in the shadows on the margins hiding away from the Stasi's prying eyes In fact as Sara Blaylock shows many cultivated a critical influence over the very bureaucracies meant to keep them in line undermining state authority through forthright rather than covert projects In Parallel Public Blaylock describes how some East German artists made their country's experimental art scene a form of counter public life creating an alternative to the crumbling collective underpinnings of the state Blaylock examines the work of artists who used body based practices including performance film and photography to create new vocabularies of representation sharing their projects through independent networks of dissemination and display From the collective films and fashion shows of Erfurt's Women Artists Group which fused art with feminist political action to Gino Hahnemann the queer filmmaker and poet who set nudes alight in city parks these creators were as bold in their ventures as they were indifferent to state power Parallel Public is the first work of its kind on experimental art in East Germany to be written in English Blaylock draws on extensive interviews with artists art historians and organizers artist made publications official reports from the Union of Fine Artists and Stasi surveillance records As she recounts the role culture played in the GDR's rapid decline she reveals East German artists as dissenters and witnesses citizens and agents their work both antidote to and diagnosis of a weakening state **BRIXMIS and the Secret Cold War** Andrew Long, 2024-09-30 A detailed account of British intelligence operations in Cold War East Germany revealing Soviet and East German military secrets from 1946 to 1990 The German Democratic Republic or East Germany was the frontline in the Cold War packed with hundreds of thousands of Soviet and East German troops armed with the latest Warsaw Pact equipment lined up along the 1 400 km Inner German Border However because of the repressive East German police state little human intelligence about these forces reached the West Who were they Where were they located

What were they doing How were they equipped What were their intentions NATO was lined up in West Germany to face these forces and relied on getting up to date intelligence to warn of any threat Indicators of Hostility that could be a precursor to an invasion BRIXMIS the British Commanders in Chief Mission to the Soviet Forces in Germany was on hand to provide that intelligence Thanks to an obscure 1946 agreement between the British and Soviets that established liaison missions in their respective zones of occupation the British were able to send highly qualified military observers into East Germany to roam relatively freely and keep an eye on what was going on What started as liaison a point of contact between the British and Soviet occupation forces developed into a very sophisticated intelligence collection operation sending tours out every day of the year between 1946 and when the Mission closed in 1990 These tours were undertaken in high performance highly modified marked vehicles with personnel in uniform and unarmed apart from professional photographic equipment and occasionally some top secret gadgets from the boffins back in the UK They joined their French and American colleagues in snooping around the opposition photographing military bases equipment and maneuvers and trying to evade capture by the secret police and counterintelligence units They faced danger and violence daily but thanks to their bravery and professionalism the West had accurate and up to date information on what was happening in East Germany which helped keep the peace all that time This is the story of this little known unit and their exploits behind enemy lines **Germany:**

Phoenix in Trouble? Matthias Zimmer,1997-05 As Germany only recently united approaches the twenty first century it is faced with a variety of political economic and social problems that will put the country to the test Sansölye Angela Merkel

Dönemi Almanya'nın Orta Doğu Politikası Ahmet Bülbül, **Local Lives, Parallel Histories** Marcel Thomas,2020-04-23 The division of Germany separated a nation divided communities and inevitably shaped the life histories of those growing up in the socialist dictatorship of the East and the liberal democracy of the West This peculiarly German experience of the Cold War is usually viewed through the lens of divided Berlin or other border communities What has been much less explored however is what division meant to the millions of Germans in the East and West who lived far away from the Wall and the centres of political power This volume is the first comparative study to examine how villagers in both Germanies dealt with the imposition of two very different systems in their everyday lives Focusing on two villages Neukirch Lausitz in Saxony and Ebersbach an der Fils in Baden W rttemberg it explores how local residents experienced and navigated social change in their localities in the postwar era Based on a wide range of archival sources as well as oral history interviews the work argues that there are parallel histories of responses to social change among villagers in postwar Germany Despite the different social political and economic developments the residents of both localities desired rural modernisation lamented the loss of community and became politically active to control the transformation of their localities The work thereby offers a bottom up history of divided Germany which shows how individuals on both sides of the Wall gave local meaning to large scale processes of change **Being Jewish in 21st-Century Germany** Olaf Glöckner,Haim Fireberg,2015-09-25 Die Reihe
