East and West Entangled (17th-21st Centuries) Rolando Minuti,Giovanni Tarantino,2023 History has to reorient as the historian and sociologist Andre Gunder Frank observed In the global or globalised age a culture is no longer regarded as a discrete entity but rather as a hybrid formation that interacts with other cultures in an incessant process of multidirectional exchange Bringing together Eastern and Western case studies ranging from the seventeenth to the twenty first centuries this volume reminds historians that to conduct transcultural analyses they need to be alert to the multiple ways comic intents included in which difference is negotiated within contacts and encounters from selective appropriation to rejection or resistance

Germany 1989 Lothar Kettenacker,2014-01-14 In autumn 1989 the world watched transfixed as East German citizens demonstrating under the banner We are the people staged the only successful totally peaceful revolution in German history By October 1990 the process of reunification was formally concluded bringing together a nation that had been divided for almost four decades Now nearly twenty years later it is possible to judge the causes and consequences of the revolution more clearly Was the fall of the Berlin Wall an unexpected fluke or was it in fact the result of a long process of engagement between East and West And did the momentous events of 1989 really signal the start of a bright new future for a united Germany In this probing and wide ranging account Lothar Kettenacker considers the background behind the division of Germany and explains how the Berlin Wall and its death trap border proved to be the most horrendous manifestation of East West antagonism He also looks beyond 1990 to show how the confusion caused by the sudden collapse of the GDR and the fusion of two radically different economies is proving to be a challenge that will preoccupy Germany for generations to come
