Ecology Of Eden Pb:

The Ecology of Eden Evan Eisenberg, 1998 Presents new perspectives on present day environmental problems by examining the changing nature of humankind's belief in a paradise and the ways we have disguised our actual dealings with nature *The Ecologist*, 1994 **The Pacific Raincoast** Robert Bunting, 1997 This work chronicles the struggle for the Douglas fir region from the first sustained contact between native American and Euro American cultures to 1900 when Fredrick Weyerhaeuser's purchase of some of the area completed one of the largest land deals in US history Novel Ecosystems Richard J. Hobbs, Eric S. Higgs, Carol Hall, 2013-01-07 Land conversion climate change and species invasions are contributing to the widespread emergence of novel ecosystems which demand a shift in how we think about traditional approaches to conservation restoration and environmental management They are novel because they exist without historical precedents and are self sustaining Traditional approaches emphasizing native species and historical continuity are challenged by novel ecosystems that deliver critical ecosystem services or are simply immune to practical restorative efforts Some fear that by raising the issue of novel ecosystems we are simply paving the way for a more laissez faire attitude to conservation and restoration Regardless of the range of views and perceptions about novel ecosystems their existence is becoming ever more obvious and prevalent in today's rapidly changing world In this first comprehensive volume to look at the ecological social cultural ethical and policy dimensions of novel ecosystems the authors argue these altered systems are overdue for careful analysis and that we need to figure out how to intervene in them responsibly This book brings together researchers from a range of disciplines together with practitioners and policy makers to explore the questions surrounding novel ecosystems It includes chapters on key concepts and methodologies for deciding when and how to intervene in systems as well as a rich collection of case studies and perspective pieces It will be a valuable resource for researchers managers and policy makers interested in the question of how humanity manages and restores ecosystems in a rapidly changing world A companion website with additional resources is available at www.wiley.com/go/hobbs/ecosystems **Eco-Literature and Environmental Advocacy** Nasser Dasht Peyma, **Terrestrial and Freshwater Radioecology** Alfred W. Klement, Vincent Schultz, 1968 *General Technical Report PNW-GTR*, 2005 Biodiversity, Ecosystem Functioning, and Human Wellbeing Shahid Naeem, 2009-07-30 The book starts by summarizing the development of the basic science and provides a meta analysis that quantitatively tests several biodiversity and ecosystem functioning hypotheses Nature and Resources, 1996 Ethnozoology Romulo Romeu Nobrega Alves, Ulysses Paulino Albuquerque, 2017-10-23 Ethnozoology Animals In Our Lives represents the first book about this discipline providing a discussion on key themes on human animal interactions and their implications along with recent major advances in research Humans share the world with a bewildering variety of other animals and have interacted with them in different ways This variety of interactions both past and present is investigated through ethnozoology which is a hybrid discipline structured with elements from both the natural and social sciences as it

seeks to understand how humans have perceived and interacted with faunal resources throughout history In a broader context ethnozoology and its companion discipline ethnobotany form part of the larger body of the science of ethnobiology In recent years the importance of ethnozoological ethnobiological studies has increasingly been recognized unsurprisingly given the strong human influence on biodiversity From the perspective of ethnozoology the book addresses all aspects of human connection animals and health from its use in traditional medicine to bioprospecting derivatives of fauna for pharmaceuticals with expert contributions from leading researchers in the field Draws on editors and contributors extensive research experience and studies covering ethnozoology and ethnobiology Covers all aspects of human animal interaction through the lens of this emerging discipline with coverage of both domestic and wild animal topics Presents topics of great interest to a variety of researchers including those in wildlife conservation biologists ecologists conservationists and domestic related disciplines psychologists sociologists

The Ecology of Eden Evan Eisenberg, 1999-10-05 Dazzling a prose epic The Washington Post A mountain peak a rolling pasture a boulevard alive with sound and light each of us carries deep inside a dream of paradise In this magisterial contribution to the literature of ecology and the environment our nostalgia for the myth of paradise the primeval self sufficient nurturing garden where mankind was born is the starting point of a brilliant inquiry into what our place in Nature has been and ought to be Writing in lively imaginative prose and drawing deftly upon disciplines as varied as biology geology anthropology history physics and music Evan Eisenberg examines the ways in which people have envisioned and tried to re create the earthly paradise even as they have dealt with the often disastrous effects of their increasing manipulation of the environment An encyclopedic survey of efforts to heal the dangerous rift between culture and nature The Ecology of Eden is a landmark work that is enormously suggestive informative and a joy to read It s a question many writers have tackled from Paul Ehrlich to E O Wilson How can we survive while population grows resources dwindle and the threat of global climate change looms ominously Few have explored it with more originality or historic sweep A rich harvest filled with many kernels of wisdom about the future of our elusive Eden San Francisco Chronicle An ambitious thickly braided narrative that makes the clearest bid to nudge the dialectic along Eisenberg traces the story engagingly energetically with a remarkable breadth of learning and a metaphor maker s eye A vision of substance and
