William R. Thompson, 2016-05-06 The field of international relations is often stagnated in realism and liberalism Groundbreaking and guaranteed to stir debate this work will move the field of international relations beyond its current and often inadequate assumptions The contributors describe how states ideologies and other areas of analysis evolve conquer others or disappear entirely Change and the fluid nature of history though so clearly a part of historical reality are not so deeply embedded in other paradigms as they are in the variation and selection model of evolutionary international relations Some contributors lay out the various controversies inherent to the new theory while others apply the paradigm to specific

problems in IR theory Regardless of the approach the presentation of this entirely new perspective and method succeeds in forming a new paradigm of international relations Contributors include William R Thompson George Modelski Vincent S E Falger David P Rapkin Jennifer Sterling Folker Hendrik Spruyt Stewart Patrick Paul Hensel Karen Rasler Craig N Murphy Jeffrey A Hart Sangbae and Brian Pollins *The Principles of War for the Information Age* Robert Leonhard, 2009-01-16 The crisis is upon us We have no viable doctrine for tomorrow's wars Now that the world has entered the information age principles that have served to enlighten the art of war no longer work Born of agrarian times and honed during the industrial age the classical principles of war are in large part hopelessly outdated Radical change is needed now *The Principles of War for the Information Age* provides a prescription for this change Of Fears and Foes Jose V. Ciprut, 2001-09-30 At the end of the deadliest century known to mankind the world still finds itself mired in bloodshed In addition to formal inter-state conflict we see an increase in other forms of organized violence including ethnic warfare terrorism civil conflict and internationally necessitated police actions Cornered by these powerful global forces nation-states continue their quest for security Theirs is a search plagued by futility since the very meaning of the word security is being eroded by the pace and tenor of change in an evolving international environment more complex and confusing than ever The explanatory power of traditional notions of international security which has provided a cornerstone for international relations theory as a whole seems increasingly inadequate in helping to understand the makings of global security A novel approach is needed one that integrates discerning insights from the study of language history geography religion economics and technology with more traditional understandings of the workings of power on an international level and on an intranational scale *Of Fears and Foes* presents just this kind of innovative thinking by some of the most creative scholars working on these issues today Ciprut invites us to consider a fundamental reassessment of what constitutes security and insecurity in an emerging global environment
