**Turkic Council Countries: Infrastructure, Trade, Logistics and Transportation** Mahir Humbatov,Kazim Sari,2017-11-17 The Cooperation Council of Turkic Speaking States the Turkic Council TC was established in 2009 as an intergovernmental organization to promote multilateral cooperation among Turkic Speaking States The four founding member states of the TC are Azerbaijan Kazakhstan Kyrgyzstan and Turkey In addition Uzbekistan and Turkmenistan are two possible future members of the council This study aims to investigate the infrastructural investment trade logistics and transportation potential of the mentioned countries as well as elaborate these activities among the TC s current and possible future members For this purpose firstly present situation of the trade among the Council s current and possible future members has been examined At this point it is made clear that the trade volume among these six states is not as much as expected but it is open to healing Later the opportunities and the last developments that may increase the trade volume

among the TC's current and possible future members in line with advancement of their infrastructural potential are explored. In reality the geographic location of these states is very good. Namely they are on the old trade route known as the Silk Road channels; however this road was not active for a long time. Recently this ancient trade route between East and West was aimed to be revived by China. Besides India is keen to develop another approach of the Silk Road under the International North-South Transportation Corridor INSTC initiative. In fact these are great opportunities for the TC's current and possible future members. That is there is a very large volume of trade between China and Europe and currently almost all of this trade is done through sea transport. Hence if even a small part of this trade is transported by the Chinese Initiative of the Silk Road its contribution to the current and potential future members of the TC and their integration into each other will be great. However at this point there are some tasks that current and potential members of the TC must complete to mobilize the Silk Roads. In fact opening of Baku-Tbilisi-Kars-BTK rail link recently was an important step to make it active but this is not fully enough. In this work it is also aimed to set out these tasks from the perspective of each current and potential member. Finally with the help of this review the limitations and problems of each state's infrastructural investment trade transport and logistics system have been put forward for improvement studies.
