Development, Sexual Rights and Global Governance Amy Lind, 2010-01-04 This book addresses how sexual practices and identities are imagined and regulated

through development discourses and within institutions of global governance The underlying premise of this volume is that the global development industry plays a central role in constructing people s sexual lives access to citizenship and struggles for livelihood Despite the industry s persistent insistence on viewing sexuality as basically outside the realm of economic modernization and anti poverty programs this volume brings to the fore heterosexual bias within macroeconomic and human rights development frameworks The work fills an important gap in understanding how people s intimate lives are governed through heteronormative policies which typically assume that the family is based on blood or property ties rather than on alternative forms of kinship By placing heteronormativity at the center of analysis this anthology thus provides a much needed discussion about the development industry s role in pathologizing sexual deviance yet also more recently in helping make visible a sexual rights agenda Providing insights valuable to a range of disciplines this book will be of particular interest to students and scholars of Development Studies Gender Studies and International Relations It will also be highly relevant to development practitioners and international human rights advocates The Open Access version of this book available at <http://www.taylorfrancis.com/books/e/9780203868348> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Historical Dictionary of the World Bank Sarah Tenney, Anne C. Salda, 2013-10-30 When it was founded back in 1944 no one could possibly have foreseen how the World Bank known more formally as the International Bank for Reconstruction and Development IBRD would flourish Today with 188 members it is by far the largest lender for projects in agriculture health infrastructure and many other fields in developing countries around the world with a budget of billions of dollars and a staff of more than 9 000 and its advice is usually heeded by both the developing countries which borrow from it and the advanced ones which contribute This second edition of the Historical Dictionary of the World Bank shows the substantial progress the Bank has made this mainly through the dictionary section with concise entries on its component institutions related organizations its achievements in various fields some of the major projects and member countries and its various presidents The introduction explains how the Bank works while the chronology traces the major events over nearly 70 years Meanwhile the list of acronyms reminds us just who the main players are And the bibliography directs readers to useful internal documentation and outside studies

Networking Arguments Rebecca Dingo, 2012-04-22 Networking Arguments presents an original study on the use and misuse of global institutional rhetoric and the effects of these practices on women particularly in developing countries Using a feminist lens Rebecca Dingo views the complex networks that rhetoric flows through globally and nationally and how it s often reconfigured to work both for and against women and to maintain existing power structures To see how rhetorics travel Dingo deconstructs the central terminology employed by global institutions mainstreaming fitness and empowerment and shows how their meanings shift depending on the contexts in which they re used She studies programs by the World Bank the United Nations and the United States among others to view the original policies then follows the trail of their diffusion and manipulation and the ultimate consequences for individuals To analyze transnational rhetorical processes Dingo builds a theoretical framework by employing concepts of transcoding ideological traffic and interarticulation to uncover the intricacies of power relationships at work within networks She also views transnational capitalism neoliberal economics and neocolonial ideologies as primary determinants of policy and arguments over women s roles in the global economy

Networking Arguments offers a new method of feminist rhetorical analysis that allows for an increased understanding of global gender policies and encourages strategies to counteract the negative effects they can create

Doing Democracy Darren E. Lund, Paul R. Carr, 2008 In this provocative collection of essays with a distinctly critical and nuanced approach to how democracy is taught learned understood and lived authors from four continents share their visions on how democracy needs to be cultivated critiqued demonstrated and manifested throughout the educational experience The collective concern is how we actually do democracy in education The essays argue that democracy must be infused in everything that happens

at school curriculum extra curricular activities interaction with parents and communities and through formal organization and structures One of the book's central questions is Are educators merely teaching students skills and knowledge to prepare them for the world of work or is education more about encouraging students to thrive within a pluralistic society This book reveals that democracy is an ethos an ideology a set of values a philosophy and a complex and dynamic terrain that is a contested forum for debate From seasoned veterans to emerging scholars these writers challenge the idea that there is only one type of democracy or that democracy is defined by elections Using a range of theoretical conceptual and methodological approaches each essay makes a compelling case for how education can advance a more critical engagement in democracy that promotes social justice and political literacy for all Diverse examples illustrate the theme of doing democracy With its numerous models for teaching and learning to encourage critical thinking and engagement this book is certain to be an invaluable resource to educators researchers students and anyone with a passion for democratic ideals

Developing Partnerships Kate Bedford, 2009 A nuanced critique of how the World Bank encourages gender norms through its policies *Developing Partnerships* argues that financial institutions are key players in the global enforcement of gender and family expectations By combining analysis of documents produced and sponsored by the World Bank with interviews of World Bank staffers and case studies Kate Bedford presents a detailed examination of gender and sexuality in the policies of the world's largest and most influential development institution Looking concurrently at economic and gender policy Bedford connects reform of markets to reform of masculinities loan agreements for export promotion to pamphlets for indigenous adolescents advising daily genital bathing and attempts to strengthen institutions after the Washington Consensus to efforts to promote loving couplehood in response to economic crisis In doing so she reveals the shifting relationships between development and sexuality and the ways in which gender policy impacts debates about the future of neoliberalism Providing a multilayered account of how gender aware policies are conceived and implemented by the World Bank *Developing Partnerships* demonstrates as well how institutional practices shape development

Grand Bargain of a comprehensive UN reform in the areas of development security and human rights it is argued that the Summit ended more on a note of lamentation and regret over a missed opportunity Mr Ricupero concludes that contrary to the daring proclamation at the outset by the Secretary General the conditions indispensable to succeed were not in place Indeed it was hard to imagine that an ambitious and balanced reform package for the UN could have had any real chance of succeeding Publications Update World Bank,1996
