Ecumenical Movement An Introductory History:

The Ecumenical Movement Thomas E. FitzGerald, 2004-04-30 What is Ecumenism How and when did it start What are its goals and how will they affect the future of the Christian churches This book answers these questions and examines the remarkable story of new encounters between Orthodox Roman Catholic Anglican Old Catholic and most Protestant churches Most of these churches have been divided for centuries over issues of theology faith and practice Ecumenism seeks to reconcile these differences and to bring the churches together into a new unity based on their commonalities and their understanding of Christian faith Here FitzGerald traces the history of the churches and their divisions and focuses on the ways in which the Ecumenical movement began and the efforts that have been made to assist the churches in overcoming age old strife animosity and misunderstanding For centuries Christian churches have remained divided over their doctrinal differences but beginning in the late nineteenth century churches and their members slowly began to emerge from their isolation They began to abandon competition mistrust and misunderstanding in an effort to seek out their common interests and faith through meetings and organizations meant to bring them together The encounters between the churches led to proposals for common prayers for unity and for common witness in society While not without difficulty these encounters have fostered a renewal in Christian theology worship and witness affecting all levels of church life The process has touched Christians all over the world in various ways FitzGerald carefully traces the history of the movement and its impact on the churches themselves as well as the believers who attend them making this important reading for all Christians and anyone interested in learning more about church division and efforts to restore unity *A History of Ecumenical Movement* O. L. Snaitang, 2007

have taken place over time in Staniloae's approach to the issue of the filioque and the doctrine of the church. The theological analysis emphasizes the ecumenical contribution of the Romanian thinker to the fields of Trinitarian theology and ecclesiology. Even though this book centers primarily around Staniloae's vision on the link between the doctrine of the Trinity and the Church, it places his theological reflections in a solid dialogue with other Eastern theologians: Georges Florovsky, Vladimir Lossky, and John Zizioulas, and Western theologians Karl Barth, Yves Congar, Karl Rahner, and Walter Kasper. **Our Global**

Families Todd M. Johnson, Cindy M. Wu, 2015-02-10. As Christians we belong to not only a diverse global Christian family but also a diverse human family. Todd Johnson, a noted expert on global Christianity and world missions trends, and Cindy Wu show how divisions within these families work against our desire to bring about positive change in the world. They provide an overview of global Christian identity, exploring how we can be faithful to our own tradition while engaging Christians across denominations and be better informed as we work with people of other religions. The book utilizes the latest research data on global Christianity and world religions and includes tables, graphs, charts, and end-of-chapter discussion questions.

Communion, Diversity, and Salvation Brian Flanagan, 2011-06-09. Questions surrounding the understanding of communion are a significant feature of much contemporary ecclesiology, but their prominence calls attention to wider questions regarding ecclesiological method. Brian Flanagan addresses the questions of how to characterize a systematic ecclesiology and the possibility of a systematic communion ecclesiology through an investigation of the concept of communion in the work of Jean Marie Tillard. OP Tillard's theology is noted as the most prominent Roman Catholic communion ecclesiology. Flanagan argues that Tillard contributes to systematic ecclesiology by defining the concept of
