Geschichte der Vorgeschichtsforschung Herbert Kühn, 2019-07-22 Keine ausführliche Beschreibung für Geschichte der Vorgeschichtsforschung verfügbar **Powerful Pictures: Rock Art Research Histories around the World** Jamie Hampson, Sam Challis, Joakim Goldhahn, 2022-12-29 Focusing on stunning paintings and engravings from around the world 16 papers interrogate the driving forces behind global rock art research Many of the motifs featured were created by indigenous hunter gatherer groups this book sheds new light on non Western rituals and worldviews many of which are threatened or on the point of extinction Ausgewählte Bibliographie zur Vorgeschichte von Mitteleuropa Rolf Hachmann, Johannes Boese, Deutsches Archäologisches Institut. Römisch-Germanische Kommission, 1984 At head of title Römisch Germanische Kommission des Deutschen Archäologischen Instituts *Bibliography of Fossil Vertebrates, 1964-1968* Charles Lewis Camp, 1972 New Perspectives on Prehistoric Art Günter Berghaus, 2004-04-30 Following the discovery of Franco Caribbean cave art in the nineteenth century standard interpretations of these works usually revolved around hunting magic and fertility cults Orthodox positions such as these have weighed heavily on later generations of art historians archaeologists and anthropologists even those whose views dissented from those of their predecessors In the last few decades however new approaches to cave art often based on discoveries made in Africa Asia Australia North America and the Arctic region have produced new insights into possible meanings and functions of prehistoric paintings and sculptures This new collection of essays explores these insights gathering the observations of eight experts from a variety of disciplines and examining some of the social and spiritual functions of a variety of artistic genres ranging from 40 000 B C to 5 000 B C These insights which derive from evolutionary biology feminist scholarship ritual studies and new modes of anthropology argue collectively that prehistoric art was a culture specific form of communication that should be interpreted in the social context of early hunter gatherer societies and should not be measured with the criteria and paradigms of modern art Essential reading for anyone interested in prehistoric art or its cultural implications this volume represents a bold step forward in the research and analysis of the very first artists **Philosophy of Nature** Paul K. Feyerabend, 2016-09-13 Philosopher physicist and anarchist Paul Feyerabend was one of the most unconventional scholars of his time His book *Against Method* has become a modern classic Yet it is not well known that Feyerabend spent many years working on a philosophy of nature that was intended to comprise three volumes covering the period from the earliest traces of stone age cave paintings to the atomic physics of the 20th century a project that as he conveyed in a letter to Imre Lakatos almost drove him nuts Damn the Naturphilosophie The book's manuscript was long believed to have been lost Recently however a typescript constituting the first volume of the project was unexpectedly discovered at the University of Konstanz In this volume Feyerabend explores the significance of myths for the early period of natural philosophy as well as the transition from Homer's aggregate universe to Parmenides uniform ontology He focuses on the rise of rationalism in Greek antiquity which he considers a disastrous

development and the associated separation of man from nature Thus Feyerabend explores the prehistory of science in his familiar polemical and extraordinarily learned manner The volume contains numerous pictures and drawings by Feyerabend himself It also contains hitherto unpublished biographical material that will help to round up our overall image of one of the most influential radical philosophers of the twentieth century The Hero in Transition Ray Broadus Browne, Marshall William Fishwick, 1983 An investigation of society's heroes during any time period will reveal the personnel deemed worthy of being emulated at that particular time by that particular society There will be many old and time tested figures sometimes with new faces and new profiles there will also be a mix of new faces Thus the hero like history itself is constantly in transition and both the hero and the transition are fundamental to the study of a culture These essays turn the pantheon of heroes around before our eyes and reveal the many complicated aspects of hero worship **International Bibliography of the Social Sciences** International Committee for Social Sciences, 1967-04 First published in 1967 Routledge is an imprint of Taylor Francis an informa company Eiszeitkunst Herbert Kühn, 1965 **Das fupark und seine einzelsprachlichen Weiterentwicklungen** Alfred Bammesberger, Gabriele Waxenberger, 2012-02-14 Der Band dokumentiert eine Tagung die im Jahr 2003 an der Katholischen Universität Eichstätt abgehalten wurde Die Tagung war thematisch genau eingegrenzt auf die Probleme des Systems der altgermanischen Runenschrift und die Entwicklung des futhark in den einzelsprachlichen Traditionen Der Zielsetzung entsprechend wurden ausgewiesene Spezialisten für die jeweiligen Fragestellungen als Referenten ausgewählt Ein besonderes Augenmerk galt der Runeninschrift im Schulerloch bei Kelheim deren Echtheit umstritten ist In einer Reihe von Fragestellungen bringt der Band sicherlich als endgültig zu betrachtende Resultate
