David A. Dyker

Ekonomika Zdravogo Smysla:

Economic Thought and Economic Reform in the Soviet Union Pekka Sutela, 1991-07-26 Although the history of centrally planned economies has been widely studied the development of socialist thinking on the subject has remained largely uncharted In this 1991 work Pekka Sutela presents a detailed analysis of Soviet economic thought and theory Dr Sutela traces the competing currents in the Marxist tradition of socialist economies from the Revolution to the present day In particular he shows how the Gorbachev economic reform programme of 1987 rose from the work of Nobel Prize economist L V Kantorovich and his followers However this programme failed and the author explains in some detail why this happened Since then Soviet economists have tried to abandon their traditional theory of central planning and move along the path and long established contacts with leading Soviet economists Pekka Sutela is able to show how Soviet economic thinking has moved from dogmatism through reformism to pragmatism Soviet Political Scientists and American Politics Neil Malcolm, 1984-05-24 This book is the only comprehensive review of Soviet specialist writing on American politics covering the period from the establishment of Arbatov s USA Institute to the early 1980s When Ideas Fail Joachim Zweynert, 2017-11-01 In the history of Russian economic ideas a peculiar mix of anthropocentrism and holism provided fertile breeding ground for patterns of thought that were in potential conflict with the market These patterns did not render the emergence of capitalism in Russia impossible But they entailed a deep intellectual division between adherents and opponents of Russia's capitalist transformation that made Russia's social evolution unstable and vulnerable to external shocks This study offers an ideational explanation of Russia's relative failure to establish a functioning market economy and thus sets up a new and original perspective for discussion In post Soviet Russia a clash between imported foreground ideas and deep domestic background ideas has led to an ideational division among the elite of the country Within economic science this led to the emergence of two thought collectives in the sense of Ludvik Fleck with entirely different understandings of social reality This ideational division translated into incoherent policy measures the emergence of institutional hybrids and thus all in all into institutional instability Empirically the book is based on a systematic qualitative analysis of the writings of Soviet Russian economists between 1987 and 2012 This groundbreaking book makes an important contribution to Central Eastern and Eastern European area studies and to the current debate on ideas and institutions in the social sciences Investment **Opportunities in Russia and the CIS** David A. Dyker, 1995 The collapse of communist power in the Soviet Union and subsequent measures to establish a private sector have created opportunities for both foreign and domestic private capital in Russia and the non Russian republics of the Commonwealth of Independent States CIS This volume which contains revised papers originally published by the Post Soviet Business Forum at the Royal Institute for International Affairs provides a sober long term assessment of investment priorities in the former Soviet Union and the problems that potential investors will encounter and their prospects for success The contributors neither exaggerate nor underestimate the difficulties facing

potential investors many of whom have been attracted by the region s enormous wealth of natural resources William Butler assesses the issues involved in creating the legal structure necessary to facilitate private investment paying particular attention to issues of ownership investment and company law David Humphreys analyzes the specific problems of investment in the mining and metals industries in the CIS and the prospects for integrating these industries with the world economy Jonathan Stern assesses the prospects for investment in the Russian oil and gas sector over the next decade Julian Cooper addresses the lessons emerging from the conversion of the former Soviet defense industry to civilian production Sergei Manezhev analyzes the specific problems of investment in the Russian Far East a region that is rich in natural resources and provides a study of the operation of free economic zones in the region David Dyker provides an overall assessment of the prospects for investment in Russia and the CIS Post Soviet Business Forum Collection Consolidated Translation Survey .1969-05 The Russian Far East Sergeĭ Aleksandrovich Manezhev,1993 Ekonomické soutěžení mezi kapitalismem a socialismem Josef Flek, 1961 V vodu jsou objasn ny z kladn pojmy podstata v znam a etapy sout en a srovn na tempa ekonomick ho rozvoje obou t bor Dal odd ly knihy srovn vaj jejich ekonomickou s lu a rove i sout en v oblasti ivotn rovn Z v r tvo perspektivy sout e do r 1965 Obs hl tabulky obsahuj mnoho statistick ho materi lu Soviet Sinology Robert Michael Gates, 1974 The Sino-Soviet Territorial Dispute, 1949-64 George Ginsburgs, Carl F.
