The Forging of the Cosmic Race Colin M. MacLachlan, Jaime E. Rodriguez O., 2023-09-01 *The Forging of the Cosmic Race* challenges the widely held notion that Mexico's colonial period is the source of many of that country's ills The authors contend that New Spain was neither feudal nor pre-capitalists as some Neo Marxist authors have argued Instead they advance two central themes that only in New Spain did a true mestizo society emerge integrating Indians Europeans Africans and Asians into a unique cultural mix and that colonial Mexico forged a complex balanced and integrated economy that transformed the area into the most important and dynamic part of the Spanish empire The revisionist view is based on a careful examination of all the recent research done on colonial Mexican history The study begins with a discussion of the area's rich pre-Columbian heritage It traces the merging of two great cultural traditions the Mesoamerican and the European which occurred as a consequence of the Spanish conquest The authors analyze the evolution of a new mestizo society through an examination of the colony's institutions economy and social organization The role of women and of the family receive particular attention because they were critical to the development of colonial Mexico The work concludes with an analysis of the 18th century reforms and the process of independence which ended the history of the most successful colony in the Western hemisphere The role of silver mining emerges as a major factor of Mexico's great socio-economic achievement The rich silver mines served as an engine of economic growth that stimulated agricultural expansion pastoral activities commerce and manufacturing The destruction of the silver mines during the wars of Independence was perhaps the most important factor in Mexico's prolonged 19th century economic decline Without the great wealth from silver mining economic recovery proved extremely difficult in the post-independence period These reverses at the end of the colonial epoch are important in understanding why Mexicans came to view the era as a burden to be overcome rather than as a formative period upon which to build a new nation *The Forging of the Cosmic Race* challenges the widely held notion that Mexico's colonial period is the source of many of that country's ills The authors contend that New Spain was neither feudal nor pre-capitalists as some Neo

In the Palace of Nezahualcoyotl Eduardo de J. Douglas, 2012-10-03 Around 1542 descendants of the Aztec rulers of Mexico created accounts of the pre Hispanic history of the city of Tetzco Mexico one of the imperial capitals of the Aztec Empire Painted in iconic script picture writing the Codex Xolotl the Quinatzin Map and the Tlohtzin Map appear to retain and emphasize both pre Hispanic content and also pre Hispanic form despite being produced almost a generation after the Aztecs surrendered to Hern n Cort s in 1521 Yet as this pioneering study makes plain the reality is far more complex Eduardo de J Douglas offers a detailed critical analysis and historical contextualization of the manuscripts to argue that colonial economic political and social concerns affected both the content of the three Tetzcoan pictorial histories and their archaizing pictorial form As documents composed by indigenous people to assert their standing as legitimate heirs of the Aztec rulers as well as loyal subjects of the Spanish Crown and good Catholics the Tetzcoan manuscripts qualify as subtle yet shrewd negotiations between indigenous and Spanish systems of signification and between indigenous and Spanish concepts of real property and political rights By reading the Tetzcoan manuscripts as calculated responses to the changes and challenges posed by Spanish colonization and Christian evangelization Douglas s study significantly contributes to and expands upon the scholarship on central Mexican manuscript painting and recent critical investigations of art and political ideology in colonial Latin America
