An Economic History of Twentieth-Century Latin America E. Cardenas, J. Ocampo, R. Thorp, 2000-11-09 This book explores the impact on Latin America of the extraordinary transformation of the international economy that took place in the half century or so that preceded the world depression of the 1930s The authors show how the response varied in terms of both growth and distribution shaped by varying preconditions and by natural resources and geography The interplay of economic developments with political and social structures had profound and varied effects on policy making and on institutions that were of great significance for later decades *The Church and Labour in Colombia* Kenneth Medhurst, 1984 Study of relationships between the Catholic Church and trade unionism in Colombia with particular reference to the period after 1946

la manera en que los estudios historiográficos y sociológicos frecuentemente han entendido a Gaitán y a su movimiento en especial caracterizándolos entre los polos antitéticos de ruptura y continuidad frente al orden político y social vigente. Asimismo este trabajo retoma herramientas de la teoría política y la sociología de las identidades políticas para dar nuevas luces al estudio del fenómeno gaitanista principalmente poniendo en cuestión su supuesta relación directa o causal con la violencia política de mediados del siglo XX. De este modo como parte de los populismos latinoamericanos el gaitanismo se caracteriza aquí como un proceso político que estableció un trato conflictivo respecto a sus contrincantes pero que no giraba en torno a la eliminación física de sus adversarios.

Essays in Trespassing Albert O. Hirschman, 1981-08-31 This book brings together fourteen articles and papers written by Albert O Hirschman. About half deal with the interaction of economic development with politics and ideology the area in which Hirschman perhaps has made most noted contributions. Among these papers are The Rise and Declines of Development Economics a magisterial and yet pointed essay in intellectual history and his famous article The Changing Tolerance for Income Inequality in the Course of Economic Development. Hirschman's ability to trespass or rather his inability not to trespass from one social science to another and beyond is the unifying characteristic of the volume. Authoritative searching surveys alternate here with essays presenting some of Hirschman's characteristic inventions for instance the tunnel effect and obituary improving activities. Three of the papers have not been published previously and a number of introductory notes have been especially drafted for the present volume to evoke the intellectual political climate in which certain groups of essays were written.

bibliografía selectiva sobre desarrollo rural en Colombia , **Colonización y protesta campesina en Colombia (1850-1950)** Legrand, Catherine, 2016-11-09 Este ya clásico de las ciencias sociales pretende en palabras de su autora ser una contribución al estudio del proceso dinámico e interactivo por medio del cual se generó desigualdad en el campo colombiano. Espero que constituya un aporte a una historia de la memoria en Colombia y que con respecto al presente arroje luz sobre las incertidumbres de la propiedad privada y las profundas tensiones en las reas de expansión de la frontera agraria para quienes habrán de implementar el acuerdo de paz entre el Gobierno colombiano y las FARC.

Al inclinar la atención hacia ellos se ha tomado partido por el modo como intervinieron sobre los asuntos que decidieron en cada uno la proyección de sus ideas.
