Praxis y representación femenina en el oficio literario Fernando Candón Ríos, 2024-12-26 En los últimos cinco años los estudios sobre la mujer y la literatura han experimentado un notable incremento de interés por parte de las administraciones públicas instituciones privadas y universidades Este renovado enfoque ha sido en parte favorecido por las numerosas subvenciones que han financiado diversas publicaciones y eventos Sin embargo el impulso económico proveniente de las convocatorias públicas ha dado lugar a la proliferación de eventos y publicaciones cuya calidad académica resulta cuestionable En este contexto el sistema universitario parece cada vez más alineado con una lógica de producción acelerada dirigida a la generación de resultados rápidos y fáciles Este enfoque tiende a equiparar en términos de valor académico trabajos elaborados de manera superficial con aquellos realizados con mayor rigor tiempo y dedicación De esta manera Praxis y representación femenina en el oficio literario surge como una propuesta que busca contrarrestar la tendencia académica actual donde lo inmediato y superficial prevalece en espacios en los que debe priorizar el rigor intelectual y el trabajo profesional
