**Economic Development of Communist China** Choh-Ming Li, 2022-08-19 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1959 *The Economy of Communist China, 1949-1969* Chu-yuan Cheng, 2020-08-06 Economic development in mainland China during the first two decades of Communist control provides a typical example for the difficult task to transform a vast underdeveloped agrarian economy into a modern industrial one In the first half of this period a series of massive transformations of social and economic institutions was accompanied by a drafted industrialization program the result was an impressive speed up in economic growth The second decade witnessed an economic crisis 1960-62 and a political upheaval 1966-68 These disruptions marred the economic performance over the period as a whole Consequently the long term growth rate appears to have been only moderate The Economy of Communist China reviews selected aspects of the economy After examining the development strategy it analyzes the quantitative trends and the structural changes The book goes on to analyze the key factors contributing to the earlier growth and the elements responsible for the later disruption and finally assesses the impact of the Cultural Revolution on the Chinese economy and the prospects of the current Third Five Year Plan The text includes a bibliography of selected materials on Chinese economic development **Economic Development of China and Japan** C.D. Cowan, 2013-10-15 First published in 2005 Some of the most important of the world's problems today concern affairs in Asia and the relations between Asia and the West To deal adequately with these problems it is necessary not only to master their more obvious elements as they present themselves today but to go to their historical roots In particular it is necessary to study the economic history of modern Asian society In London the School of Oriental and African Studies with the generous assistance of the Ford Foundation began in 1959 a research programme on the economic history of East and South East Asia As part of this programme an international study group composed of scholars from America Europe and Asia was held at the School in July 1961 This volume contains a selection of the papers presented to the study group **China's Economic Development** Chu-yuan Cheng, 2019-03-13 How has the government of the PRC transformed traditional economic institutions into a socialist central planning system What has been the impact of this transformation on China's economic growth What is the essence of the Chinese development model and how successfully has it functioned during the past three decades What are the prospects for it *Scientific and Technical Manpower in Communist China* United States.
