Economic Foreign Policy Of The United States:

United States Foreign Policy United States. Congress. Senate. Committee on Foreign Relations,1959 **Economic Statecraft and US Foreign Policy** Leif Rosenberger,2019-11-12 Explaining the connection between economics and violent extremism this book argues that American foreign policy must be rebalanced with a greater emphasis on social inclusion and shared prosperity in order to mitigate the root causes of conflict Rosenberger argues that economic coercion has usually proven counterproductive and that a militarized American foreign policy too often results in frustration and strategic failure He analyses this theory through a number of case studies from the Treaty of Versailles to the more recent issues of Israel in Gaza US sanctions against Iran the US backed Saudi led boycott of Qatar and Donald Trump s trade war against China He concludes that the economic logic of social inclusion and shared prosperity demonstrated in Jean Monnet s European Coal and Steel Community would be a more successful strategy in reducing the demand for violence in the civil wars in Afghanistan Iraq Yemen and Syria This book will be of particular relevance for courses on American Foreign Policy International Relations and International Political Economy and seminars on the Near East and South Asia Professional economists diplomats and military officers in America and in the Near East and South Asia will also find the argument useful

United States. Congress. House. Select Committee on Foreign Aid,1948 Situation in Vietnam United States. Congress.

Senate. Committee on Foreign Relations,1959 **American Trade and Power in the 1960's** Thomas W. Zeiler,1992

American Trade and Power in the 1960s is a timely examination of the success and failure of United States trade policy under presidents Kennedy and Johnson Assessing a critical decade in postwar economic relations Thomas W Zeiler shows trade policy to be the decisive factor hastening America s economic decline vis a vis Western Europe and Japan By the early 1960s the international commercial might of the U S had begun to diminish as a result of the increased strength of the six member European Economic Community and a persistent balance of payments deficit Believing that America must either trade or fade Kennedy proposed a visionary foreign trade bill as a way to reinvigorate the U S economy and maintain the Western alliance against the Soviet With an astute reading of previously unused documents Zeiler provides a fascinating description of how Kennedy skillfully juggled powerful protectionist interests with his own more liberal trade sentiments to win passage of the bill Illustrating the harsh realities faced by the U S in a world where its economic dominance was no longer assured Zeiler also presents a masterful compendium of the GATT talks known as the Kennedy Round In a narrative noteworthy for its clarity theoretical sophistication and scrupulous attention to detail Zeiler shows how U S trade policy was thwarted by rising EEC integration and Gaullist obstructionism The GATT talks conclusively demonstrated that American hegemony had ended **American Trade and Power in the 1960s** brilliantly illuminates the roots of America s economic decline **Report to Congress of the U.S.-China Economic and Security Review Commission** U.S.-China Economic and Security Review Commission,2016
