**Governing for Prosperity** Bruce Bueno de Mesquita, Hilton L. Root, 2000-07-11 How do political institutions help promote prosperity in some countries and poverty in others What can be done to encourage leaders to govern not for patronage but for economic growth In this book such distinguished political economists as Douglass North Robert Barro and

Stephen Haber answer these questions providing a solution to one of the most important policy puzzles of the new century how to govern for prosperity The authors begin from a premise that political leaders are self interested politicians rather than benign agents of the people they lead When leaders depend on only a few backers to stay in power they dole out privileges to those people thereby dissipating their country s total resources and national growth potential On the other hand leaders who need large coalitions to stay in office implement policies that generally foster growth and political competition over ideas The result is that those who promote policies that lead to stagnation tend to stay in office for a long time and those who produce prosperity tend to lose their jobs Analyzing countries in North and South America and Asia the authors discuss the range of political regimes that permit or even encourage leaders to rule by mismanaging their nation s resources And they show that nations must forge institutions that allow all social groups to participate in and benefit from the economy as well as force political leaders to be responsible for policy outcomes

**Political Change, Democratic Transitions and Security in Southeast Asia** Mely Caballero-Anthony, 2009-12-16 The fragility of democracy in Southeast Asia is a subject of increasing concern While there has been significant movement in the direction of democratisation the authoritarian tendencies of popularly elected leaders and the challenges posed by emerging security threats have given rise to a shared concern about the return of military rule in the region This book examines the nature of political transitions in Southeast Asia and why political transitions towards political liberalisation and democracy have often failed to take off It considers political systems in Southeast Asia that have gone through significant periods of transition but continue to face serious challenges toward democratic consolidation Some key questions that the book focuses on are Are emerging democracies in the region threatened by weak failed or authoritarian leadership Are political institutions that are supposed to support political changes toward democratisation weak or strong How can democratic systems be made more resilient and What are the prospects of democracy becoming the defining political landscape in Southeast Asia

*Populist Threats and Democracy's Fate in Southeast Asia* William Case, 2017-02-17 Democracy in Southeast Asia has been explained using a number of factors including historical legacies social structures developmental levels transitional processes and institutional designs while other elements such as elite level relations and social coalitions have been overlooked This book offers a new explanation for democracy's collapse or persistence in Southeast Asia today Focusing on Thailand the Philippines and Indonesia the three countries in the region with the most democratic experience William Case shows that existing accounts based on contextual factors are by themselves incomplete Hence they lead us wrongly to anticipate democracy's persistence in Thailand and its collapse in Indonesia They more accurately though only partially correlate with democracy's fluctuations in the Philippines Advancing a new argument Case shows that democracy's fate is determined instead by the opportunities that contextual factors can provide for populist mobilization His model enables us better to understand democracy's breakdown in Thailand its survival in Indonesia and its slippage in the Philippines Presenting research into vital questions over democratic durability and authoritarian backlash this book will be of interest to scholars in the field of comparative politics specifically comparative democratization and Southeast Asian politics

*Legitimacy: Ambiguities Of Political Success Or Failure In East And Southeast Asia* Lynn T White, 2005-03-21 This book documents the bases for a new view of legitimacy in general and in various parts of Asia including China Malaysia South Korea Taiwan and Japan The authors see legitimacy anywhere as always partial rather than total and somewhat measurable Legitimacy is specifically political rather than more vaguely socioeconomic It can be a predicate of various sizes of collectivity not just of a sovereign government or of policies or of leaders It can be challenged by patriotism Legitimacy derives not just from scientific norms or technocracy even in modern times It is a belief whose alternative illegitimacy people may often suppress in their minds until external situations change bringing an unexpected cascade of altered legitimacy The volume is edited by Lynn White a professor in the Woodrow Wilson School and Politics Department at Princeton It throws light not only on modern changes of the process of political legitimization but also on the correlates of that process in specific East and Southeast Asian countries This book can be adopted as a textbook please email sales wpsc com for student price enquiries
