*Flexible Regional Economic Integration in Africa* Timothy Masiko, 2022 This book examines the relationship between flexible regional economic integration in the East African Community EAC through its application of variable geometry and the establishment of the African Continental Free Trade Area AfCFTA as a continent wide form of integration It uses a historical political legal and economic analysis of the processes that led to the adoption of flexible regional integration in Africa with particular regard to the EAC This takes place in the inescapable context of pan Africanism showing how regional integration efforts in Africa are based on pan Africanist ideals and how an evolution of these ideals has led to an evolution in the goals of integration With growing awareness of the weaknesses and impracticality of consensus based decision making on a global level it makes the case for the pursuit of flexibility in multilateral trade drawing lessons from the experience of the AfCFTA and blocs in other regions This book is a historical evaluation of regional economic integration efforts in Africa and it follows the path of attempts to integrate the economies on the continent from colonial times to the birth of the AfCFTA While it is a study in law it relies heavily on politics economics and history to weave together a more complete theory of economic integration based on the African experience *Flexible Regional Economic Integration in Africa* was awarded the 2020 SIEL Hart Prize in International Economic Law

Regional Economic Communities O. Olutayo, I. Adeniran, 2015-12-01 This book examines how the existence of overlapping regional institutions has presented a daunting challenge to the workings of various Regional Economic Communities RECs on the African continent The majority of the African countries are members of overlapping and sometimes contradictory RECs For instance in East Africa while Kenya and Uganda are both members of EAC and COMESA Tanzania which is also a member of the EAC left COMESA in 2001 to join SADC In West Africa while all former French colonies belong to ECOWAS they simultaneously keep membership of UEMOA an organization which is not recognized by the African Union AU Such multiple and confusing memberships create unnecessary duplication and dims the light on what ought to be priority Various chapters in this book have therefore sought to identify and proffer solutions to related challenges confronting the workings of

the RECs in different sub regions of the African continent The discourses range from security to the stock exchange identity integration development framework labour movement and cross border relations The pattern adopted in the book involves devolution of related discussions from the general to the specific that is from the continental level to sub regional case studies

**Aspects of Economic Integration in Africa** Richard Frimpong Oppong,2011-07-07 Richard Frimpong Oppong challenges the view that effective economic integration in Africa is hindered by purely socio economic political and infrastructural problems Inspired by the comparative experiences of other regional economic communities and imbued with insights from constitutional public and private international law he argues that even if the socio economic political and infrastructural challenges were to disappear the state of existing laws would hinder any progress Using a relational framework as the fulcrum of analyses he demonstrates that in Africa s economic integration processes community state inter state and inter community legal relations have neither been carefully thought through nor situated on a solid legal framework and that attempts made to provide legal framework have been incomplete and sometimes grounded on questionable assumptions To overcome these problems and aid the economic integration agenda that is essential for Africa s long term economic growth and development the author proposes radical reforms to community and national laws *Regional Integration in Africa*

regional integration can tackle the challenge of unemployment is the focus of studies on labour markets Development of the private sector and coordination of regional cross border transportation are examined through the lens of economic collaboration between Arab and African countries The book provides fresh new answers to persistent development questions and sheds new light on long held views that are either incomplete or no longer true It also opens new perspectives on the search for sustainable avenues for Africa s development In this regard it may contribute to the emergence of a new paradigm on Africa s development process and its science based policy oriented implementation

*Economic Integration in Africa* Peter Robson, *Innovation, Regional Integration, and Development in Africa* Samuel Ojo Oloruntoba, Mammo Muchie, 2018-07-26 This edited volume discusses the role of innovation and regional integration in economic development in Africa Over the past five decades post colonial African countries have struggled to break loose from the trap of poverty and underdevelopment through the adoption of various development strategies at regional national and continental levels However the results of both national and regional efforts at advancing development on the continent have been mixed Although the importance of agglomeration and fusion of institutions have long been recognized as possible path to achieving economic development in Africa the approach to regionalism has been unduly focused on market integration while neglecting other dimensions such as social policy mobility of labor educational policy biotechnology regional legislation manufacturing innovation and science and technology This volume investigates the link between innovation regional integration and development in Africa arguing that the immediate and long term development of Africa lies not just in the

structural transformation of its economies but in the advancement of scientific and innovation capacities The book is divided into four parts Part I addresses the theoretical and conceptual underpinnings of innovation and regional integration in Africa Part II presents case studies which examine how regional economic institutions are fostering innovation in Africa Part III of the book deals with sectoral issues on innovation and integrated development in Africa Part IV sets the future research on innovation regional integration and development in Africa Combining theoretical analysis and a comparative interdisciplinary approach this volume is appropriate for researchers and students interested in economic development political economy African studies international relations agricultural science and geography as well as policymakers in regional economic communities and the African Union Integration, Development and Equity: Economic Integration in West Africa Peter Robson, 2010-11-26 This reissue first published in 1983 is an authoritative study of economic integration among the states of West Africa focusing upon the issues and experience of the four main initiatives for regional integration in West Africa namely the Economic Community of West African States the Mano River Union the Communauté Economique de l'Afrique de l'Ouest and the recent initiative for the establishment of an economic and monetary union between Senegal and the Gambia

**The Quest for Regional Integration in the Twenty First Century** Joram Mukama Biswaro, 2012 In the last five decades the world has witnessed dramatic changes The Cold War has ended and geopolitical relations among the major powers have been generally stable and tranquil Moreover the demise of colonialism has allowed newly independent countries to play a greater role in the international arena and countries that used to be foes have now joined hands to develop their economies and raise the living standards of their peoples At the same time economic integration both regional and global has taken a strong hold There is a growing realization that for the survival of the modern world with increasing cross national links and externalities global cooperation is a necessity The opponents of integration argue that it is merely a guise for

exploiting people in developing countries which will cause massive disruptions of lives and with few benefits to the poor Its proponents however point to the significantly reduced levels of poverty in countries that have adopted economic integration such as China India Vietnam Brazil Chile South Africa Tanzania and others The EU experience is a successful example of integrating national economies but how far should those promoting regional integration in Africa and other regions look to the EU as a model Can regional and global integration proceed harmoniously The journey towards fully fledged regional integration in Africa and beyond could be long rough and tough Challenges and fears are enormous but hopes opportunities and prospects are immense From this study it can be further concluded that Regional Integration and Cooperation in the 21st century is a reality and relevant
