Mauritius: A successful Small Island Developing State Boopen Seetanah, Raja Sannasse, Robin Nunkoo, 2019-11-11 The economic upturn and performance of Mauritius is a far cry from predictions made in the 1960s The island s remarkable economic performance since the 1980s can be attributed to a multitude of factors instrumental to the success of the economy including structural reforms outward looking export orientated strategies diversification in the manufacturing tourism and financial services sectors amongst others sound economic governance and institutions and significant investment in human capital This book attempts to provide a detailed analysis of the various key ingredients which

have helped to propel Mauritius to its current status The various chapters provide important readings for both academics and policymakers with the final chapter providing key policy strategies which the government needs to implement to help Mauritius graduate to the next level of development namely to that of a high income economy and in moving out of the middle income trap laying the foundations for future growth and shared prosperity in the light of both domestic challenges and global constraints

Recent Developments in the Chinese Economy Almas Heshmati, 2007 China following its radical economic reform has developed rapidly in recent decades with nearly double digit annual economic growth rates China has experienced a major transformation in its transition from centrally planned economy to a developed and relatively well functioning market economy This has been facilitated through a vision strategy planning management and skilful implementation of such comprehensive reform program The planning and implementation of the policy of reforming the economy has affected every aspect of life in China It has implied organisational reforms and changes in production technology The changes have required enormous amount of resources in various forms particularly in the energy sector education and different public and private infrastructures This book provides an up to date and in depth analysis of five factors crucial to the success of the policy and current state of the economy These include economic growth bilateral trade relations science and technology flow of foreign direct investment and income inequality They all together provide a comprehensive picture of the recent developments in the Chinese economy and its path of reform The development has been a great source of admiration around the world

Extraordinary Cities Peter J. Taylor, 2013-01-01 Peter J Taylor has produced a sweeping empirically grounded defense of cities as fundamental building blocks of long term large scale social structures a way of freeing social science from state centric bias and indeed mankind s hope However the single greatest strength of this complex seductive argument is the insistence on treating cities relationally as process Here the key to understanding the significance of cities is by studying them in terms of the dynamic networks they form and in their relations to states Richard E Lee Binghamton University US The founding father of the famous Globalization and World Cities research network and think tank on worldwide links between cities presents this fascinating overview on cities in geohistory By moving cities to the centre stage Peter Taylor proposes that concern for states tell only part of the macro social story of humanity Cities have been and are the engines of innovation This impressive new book provides new insights into why cities succeed or fail The book is in the class with broadminded presentations like Jared Diamond s book Guns Germs and Steel Christian Matthiessen University of Copenhagen Denmark and President International Geographical Union s Commission on Urban Geography This is a big book by Peter Taylor It tells of the extraordinary world making powers of cities across the ages it explains why a state centric social science has constrained recognition of these powers over the last two centuries and it outlines a new indisciplinary to help us make sense of a human condition increasingly forged out of the urban Anyone troubled by the social sciences as we know them ought to read this book Ash Amin Cambridge University UK and author

Land of Strangers Accepting that cities are extraordinary this book provides an original city centred narrative of human creativity past present and future In this innovative ambitious and wide ranging book Peter Taylor demonstrates that cities are the epicenters of human advancement In exploring cities as sites through which economies flourish by harnessing the creative potential of myriad communication networks the author considers cities from varying temporal and spatial perspectives Four stories of cities are told the origins of city networks the domination of cities by world empires the genesis of a singular modern creative interval in which innovation culminates in today s globalised cities and finally the need for cities to act as centres for human creativity to produce a more resilient global society in the current crisis century Providing a long term view through which to consider the role of cities in attending to incipient crises of the twenty first century this closely argued thesis will prove essential for students and scholars of urban studies geography and sociology and all with a professional interest in or personal fascination for cities

Latin America vs East Asia: A Comparative Development Perspective Jingyuan Lin,2019-07-25 This study makes a solid case for the now prevalent contention that the development model of East Asian NICs is less costly i e over inflation levels and more equitable income distribution more adaptive to fluctuating world market conditions eg successful adjustment to the two oil crises and more sustainable i e high growth rates even in the turbulent 1970s than that of the Latin American NICs In considering these issues this book examines the major Latin American countries economic problems and development experiences in light of the more successful stabilization and development experiences of the East Asian countries Taiwan and South Korea in particular

Handbook of Development Economics Dani Rodrick,M.R. Rosenzweig,2009-11-09 What guidance does academic research really provide to economic policy development The critical and analytical surveys in this volume investigate links between policies and outcomes by surveying work from broad macroeconomic policies to interventions in microfinance Asserting that there are no universal correspondences between policies and outcomes contributors demonstrate instead that only an intense familiarity with the development context and the universe of applicable economic models can generate successful policies Getting cause and effect right is essential for policy design and implementation With the goal of drawing researchers and policy makers closer this volume highlights our increasing understanding of ways to combine economic theorizing with careful thoughtful empirical work Presents an accurate self contained survey of the current state of the field Summarizes the most recent discussions and elucidates new developments Although original material is also included the main aim is the provision of comprehensive and accessible surveys
