Barnes, Lynn A. Stout, 1992 Designed to integrate economic principles into a traditional contracts course The cases and materials consider reasons why some contracts should not be enforced where enforcement might lead to inefficient results due to externalities mistake or lack of capacity or consideration Introduces the theory of efficient breach and applying that theory to issues of impracticability and impossibility Considers various permutations of the traditional remedies for breach and the limitations on recovery of damages The final section considers duress and unconscionability and offers economic rationales for not enforcing agreements into which parties have voluntarily entered *Essays in Law and Economics II* Boudewijn Bouckaert, Gerrit de Geest, 1995 Selection of anonymously refereed papers presented at the Fifth Belgian Workshop on Law Economics held at Ghent March 4 1994 **Economics of Contract Law**, 1989 **Just Exchange** Francis H. Buckley, 2004-11-30 Now for the first time there is a comprehensive eminently readable book designed to focus thinking in the area of contract law This book bridges the gap between law and economics by confronting normative values that economists too often deem the preserve of moral philosophers Contract theorists on the other hand are seldom in sympathy with economic efficiency norms While free bargaining continues to be regarded with suspicion by legal scholars who are hostile to private ordering the proper scope of free bargaining remains in dispute Combined with a recent renewed interest in this field these academic tensions mean that the time is right for a

reconsideration of contract law Drawing on scholarship from diverse fields and using illuminating and erudite examples Just Exchange is entertaining as well as informative Of interest to economists lawyers public policy makers and those intersted in contract theory this volume is a valuable overview of a vital intersection between legal studies and economics Contract and Organisation Terence Daintith,Gunther Teubner,2011-08-30 No detailed description available for Contract and Organisation **Economics of Contract Law** ,1989 **Law and Economics** Werner Z. Barnes,Lynn A. Stout,1992-07-01 **The Economics of Justice** Richard A. Posner,1983-08-16 Posner uses economic analysis to probe justice and efficiency primitive law privacy and the constitutional regulation of racial discrimination Contract Law in America Lawrence M. Posner,2011 Contract Law and Theory conveys a grasp of theory and policy that makes all of the contract rules easier to understand By explaining and applying contract theory to a wide range of contracts cases Eric Posner reveals not only the what of doctrine but also the why why one rule rather than another makes sense from a policy perspective An understanding of what contract theory is and how it is applied will help you to understand not only Contracts as taught in law school but also the many areas of law in which contractual ideas operate such as bankruptcy law secured transactions and corporate law An exciting new Student Treatise from an eminent authority Contract Law and Theory features Complete coverage of contracts that includes the principal cases covered in most first year contracts courses A general explication of the rules of contract that begins with the simplest ideas and gradually builds in complexity A consistent emphasis on the application of theory to doctrine through analysis of a rich selection of cases A readable and expert treatment of the role of economics in contract law Illustrative examples that point to noteworthy cases Suitable for use alongside any casebook *Framing Contract Law* Victor Goldberg,2012-03-05 The central theme of this book is that an economic framework incorporating such concepts as information asymmetry moral hazard and adaptation to changed circumstances is appropriate for contract interpretation analyzing contract disputes and developing contract doctrine The value of the approach is demonstrated through the close analysis of major contract cases In many of the cases had the court and the litigators understood the economic context the analysis and results would have been very different Topics and some representative cases include consideration *Wood v Lucy Lady Duff Gordon* interpretation *Bloor v Falstaff* and *Columbia Nitrogen v Royster* remedies *Campbell v Wentz* *Tongish v Thomas* and *Parker v Twentieth Century Fox* and excuse *Alcoa v Essex* **The Economics of Contracts** Eric Brousseau,Jean-Michel Glachant,2002-10-17 A contract is an agreement under which two parties make reciprocal commitments in terms of their behavior to coordinate As this concept has become
