Ecrire l'histoire Du Xxe Siecle:

Ecrire l'histoire du XXe siècle Alain Besançon, 1994 Ecrire l'histoire de l'Afrique à l'époque coloniale Sophie Dulucq, 2009 Ecrire l'histoire de l'Afrique est une entreprise aux racines plus anciennes qu'on ne le croit généralement. À la recherche de l'imperialisme triomphant, cette historiographie s'est affirmée dans un paysage intellectuel politique et idéologique où cette tendance s'attache à reconstruire l'Afrique comme dans les territoires coloniaux historiens. Auteurs variés ont ainsi exhumer des pans entiers d'un passé dont on a progressivement découvert la richesse et la complexité. Ce nouveau champ de connaissances, en situation coloniale, mobilise entre la fin du XIX^e siècle et la décade de 1950 des négociations et des compétences nombreuses. Nombreux sont les savants, revues scientifiques, historiens amateurs et professionnels, rudes locaux actifs dans les colonies, qui, ensemble, conjuguent leurs efforts pour affirmer la légitimité de leur démarche et diffuser leurs découvertes. Leurs travaux contribuent à finir les contours d'un récit historique qui propose des interpretations tablées des chronologies et instaure des découpages dont certains ont survécu à la décolonisation. Bien sûr, cette histoire coloniale a partie liée avec les pouvoirs impériaux, soucieux de connaître les colonies afin de les mieux dominer. Elle a longtemps renforcé le discours de la légitimation de l'entreprise coloniale, le destin historique des peuples extra-européens étant alors en doute. Les colonies pour accorder la civilisation ou la抗拒 ration. Mais plus contrastée et moins monolithique qu'on ne pourrait le croire, l'historiographie de la première moitié du XX^e siècle a aussi contribué à produire des savoirs nouveaux sur l'Afrique, expérimentant des modes d'enquête innovants promouvant des chercheurs africains et inventant ce que l'on nomme l'histoire indigène. Dans les dernières années de la domination, plusieurs historiens français et africains sont également conduits à revisiter de façon critique les modèles interprétatifs dominants et poser les bases d'une histoire de l'Afrique enfin décolonialisée.

Ecrire l'histoire de l'Amérique latine, XIX^e-XX^e siècles, 2001. Retrace l'évolution de la nature et de la fonction du savoir historique sur l'Amérique latine, en alliant études de cas et réflexions plus générales sur l'avènement d'une historiographie.

Les usages publics de l'écriture : (Antiquité - XX^e siècle), 2006 **The Colonial Origins of Modern Social Thought** George Steinmetz, 2025-02-25. A new history of French social thought that connects postwar sociology to colonialism and empire. In this provocative and original retelling of the history of French social thought, George Steinmetz places the history and development of modern French sociology in the context of the French empire after World War II. Connecting the rise of all the social sciences with efforts by France and other imperial powers to consolidate control over their crisis-ridden colonies, Steinmetz argues that colonial research represented a crucial core of the renaissance academic discipline of sociology, especially between the late 1930s and the 1960s. Sociologists who became favored partners of colonial governments were asked to apply their expertise to such social problems as detribalization, urbanization, poverty, and labor migration. This colonial orientation permeated all the major subfields of sociological research. Steinmetz contends and is at the center of the work of four influential scholars: Raymond Aron, Jacques Berque, Georges Balandier, and Pierre Bourdieu. In retelling this

history Steinmetz develops and deploys a new methodological approach that combines attention to broadly contextual factors dynamics within the intellectual development of the social sciences and sociology in particular and close readings of sociological texts He moves gradually toward the postwar sociologists of colonialism and their writings beginning with the most macroscopic contexts which included the postwar reoccupation of the French empire and the turn to developmentalist policies and the resulting demand for new forms of social scientific expertise After exploring the colonial engagement of researchers in sociology and neighboring fields before and after 1945 he turns to detailed examinations of the work of Aron who created a sociology of empires Berque the leading historical sociologist of North Africa Balandier the founder of French Africanist sociology and Bourdieu whose renowned theoretical concepts were forged in war torn late colonial Algeria

[The Woman Question in France, 1400-1870](#) Karen Offen,2017-10-05 This is a revolutionary reinterpretation of the French past from the early fifteenth century to the establishment of the Third Republic focused on public challenges and defenses of masculine hierarchy in relations between women and men Karen Offen surveys heated exchanges around women s influence their exclusion from authority the increasing prominence of biomedical thinking and population issues concerns about education intellect and the sexual politics of knowledge and the politics of women s work Initially the majority of commentators were literate and influential men However as more and more women attained literacy they too began to
