Margins Jeremy Groskopf,2021-12-07 Between the advent of print advertising and the dawn of radio came cinema ads These ads aimed at a captive theater audience became a symbol of the developing binary between upper class film consumption and more consumerist media In Profit Margins Jeremy Groskopf examines how the ad industry jockeyed for direct advertisement space in American motion pictures In fact advertisers who recognized the import of film audiences fought exhibitors over what audiences expected in a theater outing Looking back at these debates in four case studies Groskopf reveals that advertising became a marker of class distinctions in the cinema experience as the film industry pushed out advertisers in order to create a space free of ads By restricting advertising especially during the rise of high class palatial theaters the film industry continued its ongoing effort to ascend the cultural hierarchy of the arts An important read for film studies and the history of marketing Profit Margins exposes the fascinating truth surrounding the invention of cinema advertising techniques and the resulting rhetoric of class division *Diversity and Society* Joseph F. role and for cultivating an educational system that meets the needs of students and parents rather than bureaucrats
Concerned citizens of every stripe will benefit from Failure's history of federal education policy its brutally honest report
card for the Department of Education its look at education systems across the globe and its ambitious policy
recommendations Failure might even succeed in reframing the way the federal education establishment thinks about
education policy
