Educación Ambiental En Las Plazas:

Educación ambiental en las plazas Graciela S. Marchese, 2005 **La formación de educadoras y educadores ambientales:** Miguel Ángel Arias Ortega, 2019 La formación de educadoras y educadores ambientales en la Universidad Autónoma de la Ciudad de México UACM ha sido uno de los objetivos primordiales a los que se ha orientado esta institución desde los primeros momentos de su creación. En su seno oferta el programa académico de la maestría en Educación Ambiental el cual busca concretar nuevas respuestas educativas a los problemas ambientales que se viven en los diferentes puntos del país y de manera particular en la Ciudad de México a fin de revelar otros futuros posibles para todos donde el respeto por la condición humana y la protección del medio ambiente sean dos aspectos inseparables. En este marco el programa de la maestría en Educación Ambiental hace un alto en el camino para tratar de averiguar cuáles han sido algunos de los senderos que ha transitado en su objetivo ineludible de formar educadores ambientales indaga sobre los conocimientos habilidades y destrezas adquiridas por los estudiantes y busca comprender cómo se han materializado en prácticas pedagógicas concretas al tiempo que pretende reflexionar sobre la forma en que sus egresados se asumen como educadores ambientales y muestra algunas de las perspectivas de futuro que le otorgan a la educación ambiental en los años por venir. Así los escritos que integran este volumen muestran distintas miradas al trabajo profesional de los egresados donde se sitúan algunos análisis y reflexiones en torno a los hallazgos y propuestas producto de la visión particular de cada uno de sus autores. Esto con la intención de compartir un primer acercamiento al campo de la educación ambiental y de manera concreta una perspectiva de análisis sobre el quehacer educativo ambiental de los egresados de este programa académico.
