School Wars: The Battle for Britain's Education Melissa Benn, 2011-11-21 No Marketing Blurb

School Wars Melissa Benn, 2012-11-13

School Wars tells the story of the struggle for Britain's education system Established during the 1960s and based on the progressive ideal of good schools for all the comprehensive system has over the past decades come under sustained attack from successive governments Now with the growing inequalities of our current system the damaging impact of spending cuts the rise of free schools and the growth of the private sector in education the values embodied in the comprehensive ideal are under threat The situation is expertly anatomized by journalist and educational campaigner Melissa Benn who explores the dangerous example of US education reform where privatization punitive accountability and the rise of charter schools have intensified social economic and ethnic divisions The policies of successive British governments have been muddled and confused but one thing is clear that the relentless application of market principles signals a fundamental shift from the ideal of quality education as a public good to education as market controlled commodity Benn ends by outlining some key principles for restoring strong educational values within a fair non selective public education system

Chance of a Lifetime John Harrison,2007-03 The purpose of this Paperback is to start a debate about the real problem of how we should educate our young people It is based on the book Chance of a Lifetime How the other half loses by Jonathan Langdale and John Harrison To be winners today young people have to be good at school or very lucky Clearly a great many of them aren t good at school but we believe they are all good at something Because the Great and the Good became the Great and the Good because they were good at school the received wisdom is that their kind of academic schooling is good for everyone it must be Look how successful they are Thus the best schools must be facsimiles of their schools and schoolchildren must all be judged by their standards the gold standards of GCSE A C and A Levels followed by university If only everyone was as academically clever as they are wouldn t the world be a better place And the children who fail at their kind of schooling are just that failures Over the years we have blamed the failure of secondary education on The governors The head teachers The teachers and above all The pupils Chance of a Lifetime shows that It isn t the governors It isn t the head teachers It isn t the teachers and It certainly isn t the pupils It s the academically focussed secondary school itself

The Best For My Child: Did the market really deliver? Fiona Millar,2018-05-21 Parent choice diversity of school provision and the idea of a quasi market in schools have dominated education policy for the last thirty years since the passage of the 1988 Great Education Reform Act But has the market worked in the way that was intended Are schools better Do we have a fairer school system Do parents really have choice Author and journalist Fiona Millar looks at why these policies have proved so seductive to a generation of politicians and seeks to uncover whether we really are doing the best for all our children If we are not what future reform could and should look like This is an area that has preoccupied me since the early 1990s when my own children s school was one of the first to be named and shamed by Ofsted explains Millar We had first hand experience of how the market worked in practice so this is an area I have followed with close interest every since Thirty years on from the 1988 Act I feel we are ready for a new approach but that is important to understand what worked and what could be better I hope my book will help to answer those questions

Deja que el mundo exterior entre en el aula Rebecca Austin,2010-05-10 Ni as y ni os aprenden mejor cuando lo que se les ofrece tiene sentido y les interesa Pueden aprender m sica percutiendo con palos u otros objetos las rejas del colegio o matem ticas bas ndose en los dibujos que han hecho de un bloque de apartamentos y de sus ventanas Tambi n aprenden cuando exploran trepan y construyen cosas juntos al aire libre Los trabajos aqu reunidos tratan de estrategias con las que los centros escolares pueden ofrecer a su alumnado experiencias m s significativas permiti ndoles conectar el aprendizaje de las aulas con otras vivencias

y prácticas en el entorno natural en sus domicilios en la comunidad local y en el entorno rural más próximo. Cada capítulo explora un recurso del exterior y muestra sus posibilidades para mejorar la enseñanza y aprendizaje en las aulas. Se argumenta teóricamente la importancia educativa del entorno en la educación infantil y se ofrecen experiencias prácticas sobre las grandes posibilidades del mundo exterior para motivar y promover aprendizajes en estas edades. Se insiste en el valor de la vida cotidiana de prestar atención a los aprendizajes que tienen lugar fuera de los centros en contextos más informales y menos reglados. Una mejor coordinación del trabajo que se realiza en los colegios, en el hogar y en otros espacios comunitarios contribuye a una mejor educación de niños y niñas y por tanto a que esos mundos no sean percibidos como excluyentes. Personalidades como Richard Bailey, Jonathan Barnes, Gina Donaldson, Gill Hope, Sue Hammond, Trisha Maynard, Alan Peacock, Ian Pickup, Ian Shirley, Helen Taylor, Terry Whyte y Jane Williams, Siegfriedsen, junto con Rebecca Austin, muestran experiencias reales de cómo facilitar la conexión entre el mundo exterior y los recursos disponibles en los centros.
