child to attend a fancy private school as well as pay for meals and transportation to that school Another case in this book discusses what happens when a parent refuses to agree to the recommended IEP placement Then the next book chapter discusses when there is a change in circumstances that requires an IEP The final court case reviews a situation when the child sought to qualify under IDEA even though the school did not diagnose a disability It also briefly covers section 504 situations and how they tie into IDEA Special education teachers need to know the law to protect themselves as well as meet their legal requirements conversely parents need to understand the law to know how broad and all encompassing the rights are for children meeting the requirements but not getting all the attention they need Dictionary of Mental Handicap Mary P.
