## Features:

- Existentialism has gained greater popularity in recent years.
- Today, many educationists talk about focusing on the individual, promoting diversity in the curriculum and emphasizing the personal needs and interests of learners.
- This philosophy emphasizes that there are no values outside human beings, and thus, suggests that human beings should have the freedom to make choices and then be responsible for the consequences of those choices.
- Existentialists suggest complete autonomy of learner. According to this philosophy, learners should be put into a number of choice-making situations, i.e., learners should be given freedom to choose what to study.
- It emphasizes that education must center on the perceptions and feelings of the individual in order to facilitate understanding of personal reactions or responses to life situations.
