Education in Transition Earl W. Hayter,1974      **The Management of Dissent** Brian K. Clardy,2002 The Management of Dissent is an analysis of the student protests on seven of Illinois public institutions of higher learning following the deaths of four students at Kent State University on May 4 1970 Author Brian K Clardy describes the nature of campus unrest on each particular campus as well as the unique reasons behind both their causes and ultimate resolution Clardy notes how state government officials held college presidents and administrations accountable for maintaining order This book plays a major role in adding a policy related dimension to the 1960s protest literature because it goes beyond a mere coverage of the major personalities of the period and focuses upon policy outcomes      **Institutions of Higher Education** Linda Sparks,1990-01-24 This bibliography brings together in one comprehensive volume citations of books dissertations theses and ERIC microfiche relating to the history of specific institutions of higher education worldwide All types of postsecondary institutions two years colleges liberal arts colleges seminaries specialized institutions and universities are included Entries include the following elements when available author editor title place of publication publisher publication date and number of pages Citations from 85 countries are included Entries are by country dependency and territory The United States has been further divided by state Names of institutions are in English References are in the language in which they were written The majority of the citations should be available in a library somewhere in the United States Obscure sources that may be difficult to obtain have been included because they are often the only citation All editions of a title as well as older works are included because of their potential value to a researcher The book should be a part of all college university and large public library collections College of Education faculty members specializing in higher or comparative education will find much of value here      *Annual Report of the Northern Illinois University Libraries* Northern Illinois University. **The Contested Murder of Latasha Harlins** Brenda Stevenson,2013-08-15 In this book Stevenson explores the long simmering resentment within LA s black community that ultimately erupted in April 1992 by focusing on an preceding event that encapsulated the growing racial and social polarization in the city over the course of the 1980s and early 1990s the 1991 shooting of a fifteen year old African American girl Latasha Harlins by a Korean grocer who suspected Harlins of shoplifting

**Teaching Children Science** Sally Gregory Kohlstedt,2010-05-15 In the early twentieth century a curriculum known as nature study flourished in major city school systems streetcar suburbs small towns and even rural one room schools This object based approach to learning about the natural world marked the first systematic attempt to introduce science into elementary education and it came at a time when institutions such as zoos botanical gardens natural history museums and national parks were promoting the idea that direct knowledge of nature would benefit an increasingly urban and industrial nation The definitive history of this once pervasive nature study movement TeachingChildren Science emphasizes the scientific pedagogical and social incentives that encouraged primarily women teachers to explore nature in and beyond their

classrooms Sally Gregory Kohlstedt brings to vivid life the instructors and reformers who advanced nature study through on campus schools summer programs textbooks and public speaking Within a generation this highly successful hands on approach migrated beyond public schools into summer camps afterschool activities and the scouting movement Although the rich diversity of nature study classes eventually lost ground to increasingly standardized curricula Kohlstedt locates its legacy in the living plants and animals in classrooms and environmental field trips that remain central parts of science education today

national midterm elections produced Republican majorities in Tennessee for the first time since Reconstruction In the wake of that election leaders of the Shelby County Schools SCS school district began legislative maneuvering to advance a long cherished goal granting their schools special school district status a move that would permanently sever the relationship between the SCS and the other school district in the county Memphis City Schools MCS Leaders of MCS realized this action would deprive it of funding from a significant part of the county s tax base So they made a stunning move of their own they renounced the MCS charter Ironically under Tennessee law this action required SCS to take over the running of Memphis s schools SCS would actually be forced to merge with MCS Thus began the largest school district consolidation in the history of the United States Race Economics and the Politics of Educational Change progresses through nine chapters that examine

the MCS SCS merger from a variety of disciplinary perspectives Historical sociological political legal institutional urban planning media studies and educational analyses of the consolidation render John M Amis and Paul M Wright's volume a valuable tool for researchers students policy makers and educators alike The investigations in this work reveal deeply entrenched inequalities that have thwarted education particularly for poor minority students throughout the region's history This text presents insight into factors that have shaped not just the school system in Shelby County but similar systems across the United States A model for other urban areas that face similar challenges this volume will serve as a significant resource for those seeking to understand the trajectory of large scale educational transformations     *Publications of the State of Illinois* Illinois.
