

## Ways forward in higher education

**Adjust financing schemes for the poor to benefit.** Examine and tackle social determinants, such as income, that limit households to low-cost and low-quality higher education. Free tuition may help, but educational grants beyond tuition should also be prioritized to motivate the poorest household members to pursue higher education.

**Promote the complementary relationship between private and public school education.** Private and public schools both have something to offer. Harness their strengths to diversify options for pursuing education.

**Improve education inputs.** Promote voluntary accreditation. Encourage more HEIs to become recognized centers for excellence. Address low teacher qualifications.

**Develop a research culture and build a functional innovation system.** There must be enabling policies that encourage technological developments and network-building among HEIs. This system should also actively link students to the scientific community and market innovations.

**Learn from the pandemic.** Leverage technology to support learning. This includes ensuring availability, affordability, and meaningful access. Regularly produce and study granular data to uncover barriers to pursuing and implementing quality higher education.

Rust, Diane Rust, 2018-05-03 Originally published in 1995 This study of the integration of East and West German education following the collapse of the German Democratic Republic in 1989 focuses on policy formation and implementation during this period of great social and political turbulence It is the result of a research project undertaken shortly after the unification The authors lived in East Germany for a full year looking carefully at individual schools vocational training centers

teacher colleges and universities The book considers questions of how education policy is successfully formulated conditions in which that policy is implemented and the consequences of the implemented educational reform The first chapters present the context and history of German education and the later chapters discuss the unification and the formation of the new school laws and the successes and failures The authors research shows that even before the unification East Germans had already opted for a system consistent with West German education law However the West Germans disregarded these changes and imposed their own version of reform on East Germany The German situation at this time is of great interest to all educators particularly students of educational policy making as well as researchers in political science economics and sociology Processes of Transition in Education Systems Elizabeth A. state of community participation among the world's youth. Authors from around the globe use empirical data to present portraits of youth constructing their civic identities through such means as community service. Youth seek to resolve ideological tensions such as in Northern Ireland and Palestine to overcome corrupting political practices such as in Italy and Taiwan to deal with disillusionment such as in Palestine and the emerging Eastern European nations and to bridge barriers against youth's meaningful participation in the working of society such as in Canada and Japan. Special conditions such as the diminution of the welfare state for instance in former West Germany and the rapid turn towards democracy in former East Germany offer insight into the process through which youth try to establish meaningful person-state relationships.
