**Nursing Education** Marilyn H. Oermann, Kathleen B. Gaberson, 2009-05-18 Designated a Doody's Core Title and Essential Purchase Without question this book should be on every nurse educator's bookshelf or at least available through the library or nursing program office. Certainly all graduate students studying to be nurse educators should have a copy. *Nursing Education Perspectives* This third edition is an invaluable resource for theoretical and practical application of evaluation and testing of clinical nursing students. Graduate students and veteran nurses preparing for their roles as nurse educators will want to add this book to their library. Score 93 4 stars Doody's This 3rd edition has again given us philosophical, theoretical, and social ethical frameworks for understanding assessment and measurement as well as fundamental knowledge to develop evaluation tools for individual students and academic programs. Nancy F. Langston PhD RN FAAN Dean and Professor Virginia Commonwealth University School of Nursing All teachers need to assess learning. But often teachers are not well prepared to carry out the tasks related to evaluation and testing. This third edition of *Evaluation and Testing in Nursing Education* serves as an authoritative resource for teachers in nursing education programs and health care agencies. Graduate students preparing for their roles as nurse educators will also want to add this book to their collection. As an inspiring award-winning title, this book presents a comprehensive list of all the tools required to measure students' classroom and clinical performance. The newly revised edition sets forth expanded coverage on essential concepts of evaluation, measurement, and testing in nursing education; quality standards of effective measurement instruments; how to write all types of test items and establish clinical performance parameters and benchmarks; and how to evaluate critical thinking in written assignments and clinical performance. Special features include the steps involved in test construction with guidelines on how to develop test length, test difficulty, item formats, and scoring procedures; Guidelines for assembling and administering a test including design rules and suggestions for reproducing the test; Strategies for writing multiple choice and multiple response items; How to develop test items that prepare students for licensure and certification examinations. Like its popular predecessors, this text offers a seamless blending of theoretical and practical insight on evaluation and testing in nursing education, thus serving as an invaluable resource for both educators and students.

**Evaluation and Testing in Nursing Education** Marilyn H. Oermann, Kathleen B. Gaberson, 2013-02-11 Print CourseSmart *Evaluation and Testing in Nursing Education* Marilyn H. Oermann, Kathleen B. Gaberson, 1998 The volumes in this popular series provide nurse educators with material to help them plan, conduct, and evaluate their instructional goals and accomplishments. The series addresses a broad spectrum of teaching situations: classroom settings and clinical instruction supervision. At some time or another, all teachers are faced with the need to measure and evaluate learning in a course, workshop, continuing education program, or educational setting. This book is a complete and very practical guide to student evaluation. Readers will learn how to apply the concepts of measurement, evaluation, and testing in nursing education; plan for classroom testing; create and administer tests; and analyze test results and assess clinical competencies.

Curriculum Development and Evaluation in Nursing Education Sarah B.

Keating, Stephanie S. DeBoor, 2017-12-02 This is a detailed yet practical guide to planning developing and evaluating nursing curricula and educational programs It provides a comprehensive and critical perspective on the totality of variables impacting curricular decisions This book provides readers with a comprehensive overview of curriculum development redesign and evaluation processes 92 4 Stars Doody's Book Reviews Reorganized and updated to deliver practical guidelines for evidence based curricular change and development the fourth edition of this classic text highlights current research in nursing education as a springboard for graduate students and faculty in their quest for research projects theses dissertations and scholarly activities It also focuses on the specific sciences of nursing education and program evaluation as they pertain to nursing educators New chapters address the role of faculty regarding curriculum development and approval processes in changing educational environments course development strategies for applying learning theories educational taxonomies and team building needs assessment and the frame factors model ADN and BSN and pathways to higher degrees and planning for doctoral education The fourth edition continues to provide the detailed knowledge and practical applications necessary for new and experienced faculty to participate in essential components of the academic role instruction curriculum and evaluation At its core the text discusses the importance of needs assessment and evidence as a basis for revising or developing new programs and highlights requisite resources and political support With a focus on interdisciplinary collaboration the book addresses the growth of simulation how to help new faculty transition into the academic role and use of curriculum in both practice and academic settings Additionally the book describes the history and evolution of current nursing curricula and presents the theories concepts and tools necessary for curriculum development Chapters include objectives discussion points learning activities references and a glossary New to the Fourth Edition Reorganized and updated to reflect recent evidence based curricular changes and developments Highlights current research New chapter Implementation of Curriculum Course Development Strategies for the Application of Learning Theories Educational Taxonomies and Instruction Team Building New chapter on Planning for Undergraduate Programs New content on Needs Assessment and the Frame Factors Model New content on Planning for Doctoral Education in Nursing New content on curriculum evaluation financial support budget management and use of evidence Key Features Supports new faculty as they transition to academe Addresses the need for preparing more faculty educators as defined by IOM report the ACA and the Consensus Model Describes the scope of academic curriculum models at every practice and academic level Threads the concept of interdisciplinary collaboration in education throughout Serves as a CNE Certification Review Evaluation and Testing in Nursing Education, Fifth Edition Marilyn H.
