Educational Research Vol 2 In Action:

Global Perspectives on Education Research, Vol. II Liesel Ebersöhn, Ingrid Gogolin, 2023-05-31 Presenting a wide range of new research from World Education Research Association WERA affiliated scholars pertaining to democracy and education this volume including topics such as school readiness in Mongolia high stakes teacher evaluation policy in Japan and family and community involvement in global educational advocacy This collection arrives at a time of extreme global challenges leaving researchers teachers students families and policymakers without a baseline of how to act react and be proactive to stem the chronic flow of disruption to global education systems These challenges require researchers worldwide to consider how evidence can support individuals and systems to buffer against extreme global health distress and conflict whilst simultaneously supporting the continued functioning of education systems and processes Such processes must allow students teachers leaders administrators and members of the educational communities to retain positive self esteem and maintain supportive relationships and systems that provide the appropriate conditions for such processes Global Perspectives on Education Research pulls together contributions from different contexts and cultures to distil vistas and research results that can enlighten a worldwide community of researchers education professionals and practitioners as well as policymakers and local national or supra national decision makers This text is also the ideal companion for educators and leaders alike as they navigate the uncertainty within global health and social justice

Dialogues in Middle Level Education Research Volume 2 David C. Virtue, 2023-04-28 This book echoes and enhances the generative dialogic knowledge building process that took place at the AMLE 2021 conference reflecting the way in which middle level researchers work collaboratively and draw ideas and inspiration for their studies from prior research and accounts of practice as well as their own experiences in the field Each of the five sections features a recent study presented at the roundtable session at the 2021 AMLE conference accompanied by two companion pieces offering different perspectives on the work In the latter the authors enrich and extend the original research by incorporating feedback from the conference session discussions revisiting their findings and conclusions considering alternative approaches to further research and proposing new or clarified implications for practice Addressing themes across theoretical frameworks and diversity of research design and with topics ranging from music education to teacher agency and the productive struggle the volume crucially presents and discusses recent innovations in the field with a view to prompting future research questions and deeper inquiry As such it will benefit researchers doctoral students and academics in the fields of middle level education educational research and specifically research methods in education Those interested in teaching and learning and adolescent development more broadly will also benefit from this volume

Methodological Approaches to STEM Education Research Volume 2 Peta J. White, Russell Tytler, Joseph Paul Ferguson, John Cripps Clark, 2021-08-27 The COVID 19 pandemic has likely changed the mathematics health and environmental education research landscape in profound and long lasting ways As such more than ever there is a need to

creatively and critically think about how we design research and for what purposes This necessitates a considered and robust discussion about educational research theory method and methodology to ensure that our research continues to impact practice in valuable ways This book maps out some of these key challenges and opportunities as we collectively enter a post COVID 19 world in which method and methodology need to be appreciated as much as research findings Topics explored here range from big picture issues in STEM Education research through perspectives on design based research to questions of analysis complexity the Delphi method and ethical dilemmas *Handbook of Special Education Research, Volume II* Christopher J. Lemons, Sarah R. Powell, Kathleen Lynne Lane, Terese C. Aceves, 2022-04-24 Divided into two volumes the Handbook of Special Education Research provides a comprehensive overview of critical issues in special education research Volume II addresses research based practices offering a deep dive into tiered systems of support and advances in interventions and assessments as well as socially emotionally culturally and linguistically relevant practices Each chapter features considerations for future research and implications for fostering continuous improvement and innovation Essential reading for researchers and students of special education this handbook brings together diverse and complementary perspectives to help move the field forward *Subject Leadership and School Improvement* Hugh Busher, Alma Harris, 2000 Curriculum and subject leadership in schools has recently gained substantial attention from both researchers and policy makers The Teacher Training Agency TTA has reinforced the importance of subject leadership in school improvement proposing a new measure of such leadership competence through the creation of national subject leader standards NPQSL Subject Leadership and School Improvement reflects critically on the work of subject and curriculum leaders especially in schools in England and Wales that is those within the policy framework of The National Curriculum and the Teacher Training Agency The book debates the functions of subject leaders in primary and secondary schools using current research **New Technology and Education** Anthony Edwards, 2012-01-26 New Technology and Education explores the benefits and dangers of the increasing use of technology in education drawing on different cultural perspectives from across the globe to consider a variety of viewpoints The reader is encouraged to engage with each facet of the debate considering the philosophical psychological and sociological implications of the relationship between technology and education Recent debates and developments are considered including What is the relationship between creativity education and new technology Are subject boundaries blurred by the use of new technologies How do we plan for technologies becoming redundant Reflective exercises interviews chapter summaries and useful websites encourage and support student learning and the application of new concepts *Getting it Right for Boys ... and Girls* Wendy Bradford, Colin Noble, 2002-01-04 Boys underachievement is grabbing headlines in the education debate and it has never been more important to solve the problem This book offers clear and practical strategies to headteachers classroom teachers and other professionals for ways to address the issue The book looks at reasons for boys underachievement ways of adapting teaching styles to maximise
