The Art of Teaching Medical Students - E-Book Pritha Bhuiyan, Avinash Supe, Nirmala Rege, 2015-07-31 It is for all those medical professionals who are involved in the process of teaching Although the general principles of teaching remain the same worldwide this book is tailored to meet the demands of Faculty Development in a Medical Institution This is a text in demand from not only medical teachers but also from all the faculty of paramedical and allied health courses Covers three broad aspects of teaching and learning viz i Technology in and of education ii Management of education and iii Educational research Beautifully illustrated educational science applies to medical teachers as well as members of healthcare team and

also all those who are involved in the art of teaching Authored by experts who have vast experience in medical education at both national and international levels Their vision thought process and knowledge get reflected in their writings A must read book for every young faculty making his her entry in the educational field as a medical teacher before embarking on educational activities Studio Teaching in Higher Education Elizabeth Boling, Richard A. Schwier, Colin M. Gray, Kennon M. Smith, Katy Campbell, 2016-06-10 Well established in some fields and still emerging in others the studio approach to design education is an increasingly attractive mode of teaching and learning though its variety of definitions and its high demands can make this pedagogical form somewhat daunting Studio Teaching in Higher Education provides narrative examples of studio education written by instructors who have engaged in it both within and outside the instructional design field These multidisciplinary design cases are enriched by the book's coverage of the studio concept in design education heterogeneity of studio commonalities in practice and existing and emergent concerns about studio pedagogy Prefaced by notes on how the design cases were curated and key perspectives from which the reader might view them Studio Teaching in Higher Education is a supportive exploratory resource for those considering or actively adapting a studio mode of teaching and learning to their own disciplines Processes and Process-Oriented in Foreign Language Teaching and Learning Wai Meng Chan, Kwee Nyet Chin, Masanori Nagami, Titima Suthiwan, 2011-10-27 There can be no products without processes Though this statement may seem to be no more than an overused generalization it encapsulates the undoubted importance of processes and process oriented approaches in language teaching and learning In foreign language education in recent decades researchers and practitioners alike are increasingly focusing their attention on 1 the learner as the active subject of learning and the internal processes that constitute his her learning leading to the development of communicative competence 2 teaching approaches curricula and materials that reflect this view of language learning and 3 other factors such as the sociocultural context social interactions and discourse and individual learner characteristics and differences The theme of this book reflects this paradigm shift and the papers included here from the disciplines of foreign language education and second language acquisition provide vital insights into processes in curriculum planning teaching methodology teacher education and professional development language acquisition language discourse classroom instruction and interactions the development of language skills and learning strategies and language learning motivation
