on personal grief and obsessions were instrumental in the development of Expressionism During his childhood the death of his parents his brother and sister and the mental illness of another sister were of great influence on his convulsed and tortuous art In his works Munch turned again and again to the memory of illness death and grief During his career Munch changed his idiom many times At first influenced by Impressionism and Post impressionism he turned to a highly personal style and content increasingly concerned with images of illness and death In the 1890s his style developed a Synthetist idiom as seen in *The Scream* 1893 which is regarded as an icon and the portrayal of modern humanity's spiritual and existential anguish He painted different versions of it During the 1890s Munch favoured a shallow pictorial space and used it in his frequently frontal pictures His work often included the symbolic portrayal of such themes as misery sickness and death and the poses of his figures in many of his portraits were chosen in order to capture their state of mind and psychological condition It also lends a monumental static quality to the paintings In 1892 the Union of Berlin Artists invited Munch to exhibit at its November exhibition His paintings invoked bitter controversy at the show and after one week the exhibition closed In the 1930s and 1940s the Nazis labeled his work degenerate art and removed his works from German museums This deeply hurt the anti fascist Munch who had come to feel Germany was his second homeland In 1908 Munch's anxiety became acute and he was hospitalized He returned to Norway in 1909 and died in Oslo in 1944

Edvard Munch Edvard Munch, Dieter Buchhart, Fondation Beyeler, Kunsthalle Würth, 2007 From the Publisher Though he is more often viewed as a semi lunatic Symbolist or proto Expressionist the great Norwegian artist Edvard Munch 1863-1944 was in fact a forerunner of much Modern art His works concentrate on the human dramas of love and death and on contemporary conditions of claustrophobia and alienation or what he called the modern life of the soul frequently deploying contemporary effects to depict this condition He worked in paint printmaking and photography though he once wrote that the camera cannot compete with a brush and canvas as long as it can't be used in heaven and hell Edvard Munch *Signs of Modern Art* assesses the significance of Munch's oeuvre as a highly independent contribution to Modern art drawing on more than 100 paintings as well as 60 drawings and prints In flouting the boundaries between the genres of painting and printmaking in his work with photography and film and through his emphasis on process for example exposing his paintings to outdoor weather Munch opened up a turn of the century view of the future
