Edited For Television:

The Queer Politics of Television Samuel A. Chambers, 2009-07-30 The Queer Politics of Television is a radical book which brings together the fields of political theory and television studies In one of the first books to do so Samuel A Chambers exposes and explores the cultural politics of television by treating television shows including Six Feet Under Buffy the Vampire Slayer Desperate Housewives The L Word and Big Love as serious important texts and reading them in detail through the lens of queer theory Chambers makes the case for the profound significance of the cultural politics of television the way in which the text of a television show itself engages with the politics of its day He argues for queer theory's essential contribution to any understanding of the political and initiates a larger project of queer television studies treading the same path as queer film studies This book makes an important and fresh contribution to queer theory and to the understanding of television as politics

Television Aesthetics and Style Steven Peacock, Jason Jacobs, 2013-07-04 Although Film Studies has successfully returned attention to matters of style and interpretation its sibling discipline has left the territory uncharted until now The question of how television operates on a stylistic level has been critically underexplored despite being fundamental to our viewing experience This significant new work redresses a vital gap in Television Studies by engaging with the stylistic dynamics of TV exploring the aesthetic properties and values of both the medium and particular types of output specific programmes and raising important questions about the way we judge television as both cultural artifact and art form Television Aesthetics and Style provides a unique and vital intervention in the field raising key questions about television's artistic properties and possibilities Through a series of case studies by internationally renowned scholars the collection takes a radical step forward in understanding TV's stylistic achievements

The Television Studies Reader Robert Clyde Allen, Annette Hill, 2004 A discussion of a truly international range of television programs this title covers alternative modes of television such as digital and satellite

Appreciating the Art of Television Ted Nannicelli, 2016-09-13 Contemporary television has been marked by such exceptional programming that it is now common to hear claims that TV has finally become an art In Appreciating the Art of Television Nannicelli contends that televisual art is not a recent development but has in fact existed for a long time Yet despite the flourishing of two relevant academic subfields the philosophy of film and television aesthetics there is little scholarship on television in general as an art form This book aims to provide scholars active in television aesthetics with a critical overview of the relevant philosophical literature while also giving philosophers of film a particular account of the art of television that will hopefully spur further interest and debate It offers the first sustained theoretical examination of what is involved in appreciating television as an art and how this bears on the practical business of television scholars critics students and fans namely the comprehension interpretation and evaluation of specific televisual artworks

The Battle for the Bs Blair Davis, 2012-04-06 The emergence of the double bill in the 1930s created a divide between A pictures and B pictures as theaters typically screened packages featuring one of each With the former

considered more prestigious because of their larger budgets and more popular actors the lower budgeted Bs served largely as a support mechanism to A films of the major studios most of which also owned the theater chains in which movies were shown When a 1948 U S Supreme Court antitrust ruling severed ownership of theaters from the studios the B movie soon became a different entity in the wake of profound changes to the corporate organization and production methods of the major Hollywood studios In *The Battle for the Bs* Blair Davis analyzes how B films were produced distributed and exhibited in the 1950s and demonstrates the possibilities that existed for low budget filmmaking at a time when many in Hollywood had abandoned the Bs Made by newly formed independent companies 1950s B movies took advantage of changing demographic patterns to fashion innovative marketing approaches They established such genre cycles as science fiction and teen oriented films think *Destination Moon* and *I Was a Teenage Werewolf* well before the major studios and also contributed to the emergence of the movement now known as underground cinema Although frequently proving to be multimillion dollar box office draws by the end of the decade the Bs existed in opposition to the cinematic mainstream in the 1950s and created a legacy that was passed on to independent filmmakers in the decades to come

Television Field Production and Reporting Fred Shook, John Larson, John DeTarsio, 2017-08-29 *Television Field Production and Reporting* provides a comprehensive introduction to the art of video storytelling Endorsed by the National Press Photographers Association this book focuses on the many techniques and tools available in today s digital landscape including how drones and miniaturized technology can enrich the storytelling process The new edition of *Television Field Production and Reporting* is an absolute must in this visually oriented rapidly changing field At its core visual storytelling helps transmit information expose people to one another and capture and communicate a sense of experience in unforgettable ways This edition reflects through practitioners eyes how to achieve those goals and excel as a professional whatever the medium at hand even as changing technology revises the storyteller s toolkit This edition emphasizes digital and emerging media and includes new color photography relevant to contemporary visual storytelling and reporting It also features important updates regarding digital media law which affect anyone who records and or disseminates digital media content whether in private on television the web via social networking sites or in commercial venues The seventh edition of *Television Field Production and Reporting* stresses the mastery of innovative storytelling practices in video programming as far ranging as electronic press kits multi camera production stylized programs corporate video raw documentaries and real time cin ma v rit

Television Across Asia Michael Keane, Albert Moran, 2003-10-16 This book explores the trade in television program formats which is a crucially important ingredient in the globalisation of culture in Asia It examines how much traffic there is in program formats the principal direction of flow of such traffic and the economic and cultural significance of this trade for the territories involved and for the region as a whole It shows how new technology deregulation privatisation and economic recession have greatly intensified competition between broadcasters in Asia as in other parts of the world and discusses how this in turn has multiplied the incidence of television format remakes with some countries developing dedicated format companies and others becoming net importers and adapters of formats

Performance and Popular Music Ian Inglis, 2017-07-05 Since the emergence of rock n roll in the early 1950s there have been a number of live musical performances that were not only memorable in themselves but became hugely influential in the way they shaped the subsequent trajectory and development of popular music Each in its own way introduced new styles confronted existing practices shifted accepted definitions and provided templates for others to follow Performance and Popular Music explores these processes by focusing on some of the specific occasions when such transformations occurred An international array of scholars reveal that it is through the often disruptive dynamics of performance and the interaction between performer and audience that patterns of musical change and innovation can best be recognised Through multi disciplinary analyses which consider the history place and time of each event the performances are located within their social and professional contexts and their immediate and long term musical consequences considered From the Beatles and Bob Dylan to Michael Jackson and Madonna from Woodstock and Monterey to Altamont and Live Aid this book provides an indispensable assessment of the importance of live performance in the practice of popular music and an essential guide to some of the key moments in its history

Records & Briefs New York State Appellate Division , Popular Performance Adam Ainsworth, Oliver Double, Louise Peacock, 2017-04-20 There is no fourth wall in popular performance The show is firmly rooted in the here and now and the performers address the audience directly while the audience answer back with laughter applause or heckling Performer and role are interlaced so that we are left uncertain about just how the persona we see onstage might relate to the private person who presents it to us Popular Performance defines and surveys varieties of performance where the main purpose is to entertain and where there is no shame in being trivial frivolous or nonsensical as long as people go home happy at the end of the show Contributions by new and established scholars focus particularly on how it is made explaining the techniques of performance and production that make it so appealing to audiences With sections examining how popular

performance works in a range of historical and contemporary examples readers will gain insights into performance forms associated with the variety tradition music hall vaudeville cabaret variety performance forms associated with circus wild west shows clowning issues relating to the identity of the performer in relation to magic burlesque pantomime in contemporary performance issues relating to venue and audience in relation to contemporary street theatre stand up and live sketch comedy

News and Politics Stephen Cushion, 2015-03-24 *News and Politics* critically examines television news bulletins still the primary source of information for most people and asks whether the wider pace and immediacy of 24 hour news culture has influenced their format and style over time Drawing on the concepts of mediatization and journalistic interventionism Stephen Cushion empirically traces the shift from edited to live reporting from a cross national perspective focussing on the two way convention in political coverage and the more interpretive approach to journalism it promotes Challenging prevailing academic wisdom Cushion argues that the mediatization of news does not necessarily reflect a commercial logic or a lowering of journalism standards In particular the rise of live two ways can potentially enhance viewers understanding of public affairs moving reporters beyond their visual backdrops and reliance on political soundbites by asking journalists to scrutinize the actions of political elites interpret competing source claims and to explain the broader context to everyday stories Considering the future of 24 hour news a final discussion asks whether new content and social media platforms including Twitter and BuzzFeed enhance or weaken democratic culture This timely analysis of *News and Politics* is ideal for students of political communication and journalism studies as well as communication studies media studies and political science

The Channeled Image Erica Levin, 2022-11-23 A fascinating look at artistic experiments with televisual forms Following the integration of television into the fabric of American life in the 1950s experimental artists of the 1960s began to appropriate this novel medium toward new aesthetic and political ends As Erica Levin details in *The Channeled Image* groundbreaking artists like Carolee Schneemann Bruce Conner Stan VanDerBeek and Aldo Tambellini developed a new formal language that foregrounded television's mediation of a social order defined by the interests of the state capital and cultural elites The resulting works introduced immersive projection environments live screening events videographic distortion and televised happenings among other forms For Levin the channeled image names a constellation of practices that mimic simulate or disrupt the appearance of televised images This formal experimentation influenced new modes of installation which took shape as multi channel displays and mobile or split screen projections or in some cases experimental work produced for broadcast Above all this book asks how artistic experimentation with televisual forms was shaped by events that challenged television broadcasters' claims to authority events that set the stage for struggles over how access to the airwaves would be negotiated in the future

Thinking Outside the Box Gary R. Edgerton, Brian Geoffrey Rose, 2005-01-01 *Thinking Outside the Box* brings together some of the best and most challenging scholarship about TV genres exploring their genesis their functions and development and the interaction of disparate genres The authors argue

that genre is a process rather than a static category and that it signifies much about the people who produce and watch the shows In addition to considering traditional genres such as sitcoms soap operas and talk shows the contributors explore new hybrids including reality programs teen oriented science fiction and quality dramas and examine how many of these shows have taken on a global reach Identifying historical continuities and envisioning possible trends this is the richest and most current study of how television genres form operate and change Global Media Convergence and Cultural Transformation: Emerging Social Patterns and Characteristics Jin, Dal Yong,2010-11-30 This book aims to engage the complex relationship between technology culture and socio economic elements by exploring it in a transnational yet contextually grounded framework exploring diverse perspectives and approaches from political economy to cultural studies and from policy studies to ethnography Provided by publisher Television and Field Reporting (Subscription) Fred Shook,John Larson,John DeTarsio,2015-09-04 Television Field Production and Reporting provides an exciting introduction to the art of visual storytelling Endorsed by the National Press Photographers Association it focuses on the many techniques and tools available in television today The new edition of Television Field Production and Reporting will be 4 color for the first time an absolute must in this visually oriented rapidly changing field **Public Sphere and Experience** Alexander Kluge,Oskar Negt,2016-02-02 The public sphere is a key concept in political discourse designating a space for political action But is this a single authoritative and universal space in which various positions compete for recognition or does it consist of multiple local spaces spread over diverse collectivities In Kluge and Negt s groundbreaking book they examine the material conditions of experience in an arena that had previously figured only as an abstract term the media of mass and consumer culture With a new up to date introduction from Alexander Kluge **Violence and Terror in the Mass Media** George Gerbner,Nancy Signorielli,1988-01-13 Originally a Unesco project this annotated bibliography results from more than 4 600 requests to media scholars and researchers for research reports publications and other information relating to violence and terrorism Although there is an international cast to the materials most are from the U S Even though violence and terrorism permeate our myths and legends there is increasing concern with their effect on viewers This bibliography is particularly timely with entries through spring 1987 The sections of the work mass media content mass media effects pornography and the media terrorism and the media give a better idea of the work s scope than does the title Choice T he annotations are clearly written succinctly descriptive of the original work s research with test groups and evaluative of research results Reference Books Bulletin This bibliography focuses on research and scholarly works relating to violence and terror Consisting primarily of articles published in scholarly journals and books this comprehensive work examines major topics such as violence and mass media content violence and mass media effects terrorism and the mass media and pornography Also included are articles from popular journals reports published by the United States and other governments conference papers and dissertations Each entry consists of the bibliographic citation and a short abstract many of the sources include studies from other countries

where relevant research has been conducted The compilers introduction provides a clear definition of violence and terrorism as they are dealt with in this volume and offers an interesting overview of various aspects of the subject Sessional Papers
