,2004 **The Quest for a New Education** Merethe Roos,2024-02-19 This book thematizes the tension between education politics and religion in Norway after the Second World War with an emphasis on the years between 1945 and 1970 and throws a new light on Norwegian school and education in the post war period The Norwegian educational landscape in the years after the Second World War must be seen against the development of the welfare state and it appears as a part of the social democracy project typical for Norway at that time The Labour Party which held a prominent position in the educational landscape in the post war decades is normally regarded to have been an important driving force behind secularization of schools in Norway not least because the total number of weekly lessons in religious education gradually was reduced This book problematizes this thesis and enlightens how important politicians and policymakers within the Labour Party defended religious education A central point is that this defense must be seen within the frames of a liberally oriented protestant theology Thus the study highlights the diversity of ideas in Norwegian politics in the post war period and demonstrates how important impulses in Norwegian politics can be viewed against a wider international background *International Journal of Religious Education* ,1926 Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1986 ,1990
