Religion, Education and Governance in the Middle East Sai Felicia Krishna-Hensel, 2016-04-08 The Middle East is a key geopolitical strategic region in the international system but its distinctive cultural and political divisions present a mosaic of states that do not lend themselves to simplistic interpretations A thoughtful analysis of the Middle East requires an understanding of the synergism between tradition and modernity in the region as it adapts to a globalizing world Religious education and activism continue to remain a significant factor in the modernization process and the development of modern governance in the states of the Middle East This interdisciplinary book explores the historical and contemporary role of religious tradition and education on political elites and governing agencies in several major states as well as generally in the region The relationship between democracy and authority is examined to provide a better understanding of the complexity underlying the emergence of new power configurations As the region continues to respond to the forces of change in the international system it remains an important and intriguing area for analysts

**Education in Modern Egypt (RLE Egypt)** Georgie Hyde, 2013-01-03 This study gives a comprehensive account of the evolution of the educational system in Modern Egypt set against the events of the last twenty five years From the Revolution of 1952 which saw the breakdown of the party system seen as sham democracy to

the re adoption of the party system in 1976 the Egyptian government has searched for an ideal system that is secular but not irreligious and benefitting from but not copying the western or eastern models Professor Hyde has analysed the problems of the educational system administrative institutional theoretical and practical and related them to Egypt s urgent need to modernise the state and to improve the quality of life of her hitherto deprived masses The deficiencies of the system are discussed with emphasis on the attempts to provide solutions mainly within the framework of reformed institutions Informal and private education literacy campaigns women s aspirations and student welfare are all considered as are policies and plans for the immediate and long term solutions of Egypt s problems The analysis also takes into account socio economic factors in post Revolutionary Egypt which not only constitute instruments of change in Egyptian society but also provide the restraints which prevent the rapid translation of educational ideals into reality First published 1978     The Jews of the Middle East and North Africa in Modern Times Reeva Spector Simon, Michael Menachem Laskier, Sara Reguer, 2003-04-30 Despite considerable research on the Jewish diaspora in the Middle East and North Africa since 1800 there has until now been no comprehensive synthesis that illuminates both the differences and commonalities in Jewish experience across a range of countries and cultures This lacuna in both Jewish and Middle Eastern studies is due partly to the fact that in general histories of the region Jews have been omitted from the standard narrative As part of the religious and ethnic mosaic that was traditional Islamic society Jews were but one among numerous minorities and so have lacked a systematic treatment Addressing this important oversight this volume documents the variety and diversity of Jewish life in the region over the last two hundred years It explains the changes that affected the communities under Islamic rule during its golden age and describes the processes of modernization that enabled the Jews to play a pivotal role in their respective countries in the nineteenth and twentieth centuries The first half of the book is thematic covering topics ranging from languages to economic life and from religion and music to the world of women The second half is a country by country survey that covers Turkey Syria Lebanon Israel Palestine Iraq Iran Afghanistan Yemen Egypt the Sudan Libya Tunisia Algeria and Morocco

**Middle Eastern Themes** Jacob M. Landau,2015-07-24 This volume first published in 1973 brings together a wide range of Professor Landau s work on recent Middle Eastern history and politics reflecting the breadth of the author s concern and research The first section deals with aspects of political organisation in the Middle East largely Egypt towards the end of the nineteenth century A little known plan of the Islamic reformer al Afghani is discussed showing him in a rather more political light than the religious haze which normally surrounds this pan Islamic campaigner The role of the influential secret societies in modern Egypt is outlined and the politics behind the fluctuations in the degree of responsibility allowed to Egyptian ministers is examined This section is concluded by a chapter on two proposals for the establishment of a Jewish homeland in the Sudan in the early days of Zionism throwing interesting light on the differing aims of early Zionists

and alternative historical paths that might have been taken The second section of the book contains studies on the Jewish situation in nineteenth century Egypt focusing on their position within the larger Muslim society and on socio economic factors as well as on the career of James Sanua Abu Naddara an Egyptian Jew who played a prominent part in nationalist agitation The two final parts of the book turn to recent and contemporary electoral politics in the Middle East with special attention being paid to the political leadership and voting behaviour of the Arabs in Israel Other studies deal with elections in Lebanon and Turkey and the final chapter analyses the militant right wing elements in the Turkish political spectrum

*Being Modern in the Middle East* Keith David Watenpaugh, 2014-12-19 In this innovative book Keith Watenpaugh connects the question of modernity to the formation of the Arab middle class The book explores the rise of a middle class of liberal professionals white collar employees journalists and businessmen during the first decades of the twentieth century in the Arab Middle East and the ways its members created civil society and new forms of politics bodies of thought and styles of engagement with colonialism Discussions of the middle class have been largely absent from historical writings about the Middle East Watenpaugh fills this lacuna by drawing on Arab Ottoman British American and French sources and an eclectic body of theoretical literature and shows that within the crucible of the Young Turk Revolution of 1908 World War I and the advent of late European colonialism a discrete middle class took shape It was defined not just by the wealth professions possessions or the levels of education of its members but also by the way they asserted their modernity Using the ethnically and religiously diverse middle class of the cosmopolitan city of Aleppo Syria as a point of departure Watenpaugh explores the larger political and social implications of what being modern meant in the non West in the first half of the twentieth century Well researched and provocative *Being Modern in the Middle East* makes a critical contribution not just to Middle East

history but also to the global study of class mass violence ideas and revolution **Armies of Sand** Kenneth Michael Pollack, 2019 Since the Second World War Arab armed forces have consistently punched below their weight They have lost many wars that by all rights they should have won and in their best performances only ever achieved quite modest accomplishments Over time soldiers scholars and military experts have offered various explanations for this pattern Reliance on Soviet military methods the poor civil military relations of the Arab world the underdevelopment of the Arab states and patterns of behavior derived from the wider Arab culture have all been suggested as the ultimate source of Arab military difficulties *Armies of Sand* Kenneth M Pollack's powerful and riveting history of Arab armies from the end of World War Two to the present assesses these differing explanations and isolates the most important causes Over the course of the book he examines the combat performance of fifteen Arab armies and air forces in virtually every Middle Eastern war from the Jordanians and Syrians in 1948 to Hizballah in 2006 and the Iraqis and ISIS in 2014 2017 He then compares these experiences to the performance of the Argentine Chadian Chinese Cuban North Korean and South Vietnamese armed forces in their own combat operations during the twentieth century The book ultimately concludes that reliance on Soviet doctrine

was more of a help than a hindrance to the Arabs In contrast politicization and underdevelopment were both important factors limiting Arab military effectiveness but patterns of behavior derived from the dominant Arab culture was the most important factor of all Pollack closes with a discussion of the rapid changes occurring across the Arab world political economic and cultural as well as the rapid evolution in war making as a result of the information revolution He suggests that because both Arab society and warfare are changing the problems that have bedeviled Arab armed forces in the past could dissipate or even vanish in the future with potentially dramatic consequences for the Middle East military balance Sweeping in its historical coverage and highly accessible this will be the go to reference for anyone interested in the history of warfare in the Middle East since 1945
