of the VET systems in the Nordic countries which otherwise have many similarities and share a common heritage in education policy This volume will help strengthen the knowledge base required for transnational policy learning and for developing vocational education internationally for the future As a result the book will be of interest to researchers academics and postgraduate students involved in the study of vocational education educational studies and educational policy as well as policy makers Monthly Labor Review United States. European Social Models from Crisis to Crisis Jon Erik Dølvik,Andrew Martin,2015 This book analyzes the interaction of European social models the institutions structuring labor markets supply side and their turbulent macroeconomic environment from the deep Europe wide recession ending Germanys post unification boom through monetary union s establishment to the Great Recession following the recent financial crisis The analysis reaches two conclusions challenging the dominant view that the social models caused unemployment by impairing labor markets efficiency in the name of equity First the social models employment and distributive effects are far outweighed by their macroeconomic environment especially in the Eurozone where its truncated structure of economic governance transformed the Great Recession into a sovereign debt crisis Second instead of a trade off between efficiency and equity the employment effects of counteracting markets tendency to generate inequality depends on the macroeconomic conditions under which it occurs and how it is done

Something Borrowed, Something Blue? Part One David Finegold,Laurel McFarland,William Richardson,1993-01-01 For Part Two please see https://play.google.com/store/books/details/David_Finegold_Something_Borrowed_Something_Blue_P?id=CvXCgAAQBAJ A distinct pattern emerged in the British education and training reform process in the latter half of the 1980s A government minister or a team of policy experts paid a brief study visit to the United States a short time later a new initiative was announced which bore a close

resemblance to a US programme More recently the flow of policy ideas across the Atlantic appears to have reversed direction This book develops a three tiered approach to the analysis of policy borrowing The first section draws on a number of different literatures relevant to this area to create an analytical framework for the study of policy borrowing Section Two examines the specific context in which these borrowing episodes occurred asking Why did Britain look to America for policy inspiration in the latter half of the 1980s The final section examines individual cases of policy borrowing at the local and national levels attempting to distill lessons about the borrowing process

Young People on the Edge (summary) Nordic Council of Ministers,2013-05-17 The unemployment among young people is considerably higher than the overall unemployment in the Nordic region A growing group of young people in the Nordic countries are at a great risk of permanent exclusion with regard to working life and society perhaps for much of their adult lives Unemployment among young people is a permanent structural problem but it has increased as a result of the global economic crisis The Nordic Council of Ministers has asked the Nordic Centre for Welfare and Social Issues to analyse how one in the Nordic region most effectively can contribute to increased inclusion of vulnerable people in the labour market The report Young people on the edge summary Labour market inclusion of vulnerable youth is a result of this work
