Scientific Literacy Under the Microscope John Loughran, Kathy Smith, Amanda Berry, 2011-11-19 Scientific literacy is generally valued and acknowledged among educators as a desirable student learning outcome However what scientific literacy really means in terms of classroom practice and student learning is debatable due to the inherent complexity of the term and varying expectations of what it means for learning outcomes To date the teacher voice has been noticeably absent from this debate even though the very nature of teacher expertise lies at the heart of the processes which shape students scientific literacy The chapters that comprise this book tap into the expertise of a group of primary teachers from Our Lady of Good Counsel OLGC a primary school that chose to actively engage in teaching for scientific literacy By analyzing the insights and thinking that emerged as they attempted to unravel some of the pedagogical complexities associated with constructing an understanding of scientific literacy in their own classrooms these teachers demonstrate the professional knowledge and skill inherent in the expertise of teaching and learning science in a primary classroom The chapters in this book illustrate the processes and structures that were created at OGLC to provide the conditions that allowed these teachers to explore and build on the range of ideas that informed their approach to teaching for scientific literacy This book is a compelling example of how a whole school approach to scientific literacy can make a difference for students learning of science and offer a concrete example of the development of professional knowledge and practice of teachers Drugs and Society Glen Hanson, Peter Venturelli, Annette Fleckenstein, 2009 The Tenth Edition of *Drugs and Society* clearly illustrates the impact of drug use and abuse on the lives of ordinary people and provides students with a realistic perspective of drug related problems in our society Written in an objective and user friendly manner this best selling text continues to captivate students by incorporating personal drug use and abuse experiences and perspectives throughout Statistics and chapter content have been revised to include the latest information on current topics **Drugs and Society** Glen R. Introduction to Teaching Gene E. Hall, Linda F. Quinn, Donna M. Gollnick, 2019-01-02 An ideal introductory text for aspiring teachers Introduction to Teaching Making a Difference in Student Learning is grounded in the realities and complexities found in today s schools Acclaimed authors Gene E Hall Linda F Quinn and Donna M Gollnick thoroughly prepare students to make a difference as teachers presenting firsthand stories and evidence based practices while offering a student centered approach to learning The authors focus on how to address one of the biggest challenges facing many of

today's schools ensuring that all students are learning and help teachers prioritize student learning as their primary focus. From true-to-life challenges that future teachers will face such as high-stakes testing, reduced funding, low retention, and Common Core State Standards to the inspiration and joy they will experience throughout their teaching careers, the Third Edition paints an importantly authentic picture of the real life of a teacher. This title is accompanied by a complete teaching and learning package.

Young Citizens of the World Marilynne Boyle-Baise, Jack Zevin, 2009-03-03

This text takes a clear stance. Social studies is about citizenship education; citizenship not only as a noun but as a verb—something one DOES. Based on this clear curricular and pedagogical purpose, it lays out a holistic and multicultural three-part process for civic preparation: becoming informed, thinking it through, and taking action. Six outstanding teaching strategies and teaching learning projects throughout bring this framework to life.
