child to attend a fancy private school as well as pay for meals and transportation to that school Another case in this book discusses what happens when a parent refuses to agree to the recommended IEP placement Then the next book chapter discusses when there is a change in circumstances that requires an IEP The final court case reviews a situation when the child sought to qualify under IDEA even though the school did not diagnose a disability It also briefly covers section 504 situations and how they tie into IDEA Special education teachers need to know the law to protect themselves as well as meet their legal requirements conversely parents need to understand the law to know how broad and all encompassing the rights are for children meeting the requirements but not getting all the attention they need Dictionary of Mental Handicap Mary P. Lindsey, 2002-03-11 Over recent years the policy of isolating and institutionalizing mentally handicapped people has gradually been dismantled and a major shift to community care has taken place But integration within the general community and access to special services has greatly increased the number of people with a need to know about mental handicap Each profession or discipline has its own terminology nowadays one must be conversant with all of them In this comprehensive dictionary Mary Lindsey has brought together terms and concepts from a wide variety of fields Approximately 2 400 entries are included ranging in length from concise explanations to encyclopaedic essays but always expressed in clear simple language Where appropriate suggestions for further reading are made and possible sources of further information given An extensive system of cross references leads the interested reader further and makes valuable connections between entries The medical aspects of mental handicap its causes prognoses and treatments are of course covered in detail But although the cause of mental handicap may be medical subsequent interventions may be sociological psychological educational medical paramedical or psychiatric This is reflected in the choice of entries making the Dictionary an invaluable source of reference for all those involved with mentally handicapped people in any capacity whatsoever Programs for the Handicapped , 1982 *Handbook for Parents of Children with Learning Disabilities* Robert J.
