Educational Administration Robert H. Palestini, 2005 In this second edition of *Educational Administration Leading with Mind and Heart* Palestini shows readers the importance of organizational development and effective management of the change process in successful school administration and leadership

Educational Administration Robert Palestini, 2005-08-17 *Educational Administration Leading with Mind and Heart* 2nd edition takes an organization development approach to producing effective leadership Picture yourself standing in the middle of a dense forest Suppose you were asked to describe the characteristics of the forest what types of trees are growing in the forest how many acres of trees are there where are the trees thriving where are they not Faced with this proposition most people would not know where to start and would not be able to see the forest for the trees Newly appointed school administrators often have these same feelings of confusion when faced with the prospect of having to assume a leadership role in a complex organization like a school or school system Where does one start An effective way to start would be to systematically examine the components that make up an organization Such a system of organizational diagnosis and prescription will lead to a comprehensive and integrated analysis of the organization's strengths and weaknesses and point the way toward possible improvement This book suggests such a sequential and systematic approach Utilizing it effectively can produce dramatic and useful results

Educational Administration Robert Palestini, 2011-10-16 Newly appointed school administrators are often confused when faced with the prospect of having to assume a leadership role in a complex organization like a school or school system Where does one start An effective method would be to systematically examine the vital components that make up an organization A system of organizational diagnosis and prescription will lead to a comprehensive and integrated analysis of the organization's strengths and weaknesses and point the way toward possible improvement The new edition of *Educational Administration Leading with Mind and Heart* suggests such a sequential and systematic approach Utilizing it effectively can produce dramatic results

Going Back to the Future Robert Palestini, 2011-09-09 It was Edmund Burke the British Statesman and philosopher who said that those who don't know history are destined to repeat it In this book at least as far as educational leadership is concerned Robert Palestini helps ensure that we do not fall into the trap of ignoring history Dr Palestini rightly points out that effective leaders have been utilizing the same leadership behavior for centuries He uses this evidence to support the perennial and lasting impact of situational leadership theory which posits that no single way of leading works in all situations Rather appropriate leadership

behavior depends on the circumstances at a given time For centuries effective managers have been diagnosing the situation identifying the leadership style or behavior that will be most effective and then determining whether they can implement the required style At the turn of the last century the editors of Life Magazine identified the 100 leaders who they believed had the most impact of the global society during the second millennium Using this list as a backdrop Palestini chose ten of the twentieth century individuals on the list to explore what it was about their respective leadership behavior that allowed them to have such a significant and lasting impact on our society When we examine the leadership behavior of the ten great leaders profiled in this book we will most certainly find that the most effective of them operated out of all five leadership frames the lesson learned being that if one wishes to hone one s current leadership skills or become a future leader one can learn to do so by reflectively looking to the leaders of the past

Leadership with a Conscience Robert Palestini,2011-12-02 Leaders and aspiring leaders are constantly searching for role models who are

successful in placing leadership theory into effective practice This book identifies ten such role models whose heroic leadership behavior is analyzed in order to reveal what particular abilities and skills made them successful and how those attributes can be applied to one's own leadership practice whether that be as a classroom teacher a principal or a superintendent of schools They are juxtaposed with ten leaders who were effective but certainly not heroic Dr Palestini points out that effective leaders have been utilizing the same leadership behavior for centuries He uses this evidence to support the perennial and lasting impact of situational leadership theory which posits that no single way of leading works in all situations Rather appropriate leadership behavior depends on the circumstances at a given time For decades effective managers have been diagnosing the situation identifying the leadership style or behavior that will be most effective and then determining whether they can implement the required style The leadership behavior of ten heroic leaders ranging from Jane Addams to Warren Buffett and from Abraham Lincoln to Joe Paterno is examined in this book The lesson learned from these heroic leaders being that if one wishes to hone one's current leadership skills or become a future leader one can learn to do so by reflectively looking to those who have established themselves in history as both effective and heroic leaders that is leaders who lead with both mind and conscience
