Educational Evaluation: Theory and Practice Blaine R. Worthen, James R. Sanders, 1973 **Educational Evaluation**
Blaine R. Worthen, James R. Sanders, 1973 **Engineering Education Quality Assurance** Arun Patil, Peter
Gray, 2009-09-16 With the rapid globalization of higher education as well as related changes in social political economic and
other conditions over the last 25 years there have been ever increasing expectations for higher education in general and
Engineering Education in particular These expectations are often expressed in terms of the need for Quality Assurance
locally regionally and globally In some cases there is a long tradition of independence and self regulation of higher education
institutions and programs In other contexts there has been considerable governmental regulation and disciplinary direction
over time The authors in this volume represent essentially all continents and 15 different countries The common issues that
they raise and their accounts of past present and future challenges provide a snapshot of the current state of Quality
Assurance in higher education and Engineering Education This volume begins with an overview of the history and background
of Quality Assurance in higher education and Engineering Education over the last century The discussion of the historical
philosophical political and social background of Quality Assurance sets the stage for the other chapters Following this broad
brush stroke introduction in the next part of the book authors describe the general issues and challenges facing Quality
Assurance in the twenty first century from both regional and national perspectives These authors have extensive experience
in the area of Quality Assurance and have observed its growth and development first hand over many years Program
Evaluation Theory and Practice Donna M. Mertens, Amy T. Wilson, 2012-02-20 This engaging text takes an evenhanded
approach to major theoretical paradigms in evaluation and builds a bridge from them to evaluation practice Featuring helpful
checklists procedural steps provocative questions that invite readers to explore their own theoretical assumptions and
practical exercises the book provides concrete guidance for conducting large and small scale evaluations Numerous sample
studies many with reflective commentary from the evaluators reveal the process through which an evaluator incorporates a
paradigm into an actual research project The book shows how theory informs methodological choices the specifics of
planning implementing and using evaluations It offers balanced coverage of quantitative qualitative and mixed methods
approaches Useful pedagogical features include Examples of large and small scale evaluations from multiple disciplines
Beginning of chapter reflection questions that set the stage for the material covered Extending your thinking questions and
practical activities that help readers apply particular theoretical paradigms in their own evaluation projects Relevant Web
links including pathways to more details about sampling data collection and analysis Boxes offering a closer look at key
evaluation concepts and additional studies Checklists for readers to determine if they have followed recommended practice A
