Educational Research Primer Anthony Picciano, 2004-10-18 An accessible guide designed as an introduction to educational research and statistics Dr Picciano places especial emphasis on understanding and interpreting statistical procedures rather than on working with mathematical formulae The primer covers the main areas of concern to any student embarking on a research project such as how to locate material for research purposes how to plan a research project how to conduct various types of research as well as how to use research in educational practice The primer is brought to life with numerous examples from Dr Picciano s workshops which demonstrate how to interpret various statistical routines using statistical software packages

Using Statistics in Small-Scale Language Education Research Jean L. Turner, 2014-02-18 Assuming no familiarity with statistical methods this text for language education research methods and statistics courses provides detailed guidance and instruction on principles of designing conducting interpreting reading and evaluating statistical research done in classroom settings or with a small number of participants While three different types of statistics are addressed descriptive parametric non parametric the emphasis is on non parametric statistics because they are appropriate when the number of participants is small and the conditions for use of parametric statistics are not satisfied The emphasis on non parametric statistics is unique and complements the growing interest among second and foreign language educators in doing statistical research in classrooms Designed to help students and other language education researchers to identify and use analyses that are appropriate for their studies taking into account the number of participants and the shape of the data distribution the text includes sample studies to illustrate the important points in each chapter and exercises to promote understanding of the concepts and the development of practical research skills Mathematical operations are explained in detail and step by step illustrations in the use of R a very powerful online freeware program to perform all calculations are provided A Companion Website extends and enhances the text with PowerPoint presentations illustrating how to carry out calculations and use R practice exercises with answer keys data sets in Excel MS DOS format and quiz midterm and final problems with answer keys

Integrating Quantitative and Qualitative Methods in Research George R. Taylor, 2005 This book provides a clear practical introduction to qualitative and quantitative statistical research Drawing from his experience conducting statistics seminars

editor George Taylor presents a streamlined overview of both quantitative and qualitative research methods Each chapter includes work sessions and sample problems making this book an indispensable resource for graduate students

Introduction to Educational Research Craig A. Mertler, 2021-01-26 Designed to guide readers through every step of their first educational research project this updated edition of Mertler's practical text offers balanced coverage of qualitative and quantitative methods an emphasis on ethics and a wealth of new examples and concrete applications

The Elements of Inquiry Peter J. Burke, Sara Jimenez Soffa, 2018-03-23 The Elements of Inquiry covers the basic guidelines for graduate students doing an investigation or inquiry project It distills the rubrics necessary for teaching research methods and completing research projects and gives the student researcher a list of steps to follow to complete any type of inquiry project including formal research projects such as doctoral dissertations It was written to support the work of students in an educational leadership doctoral program but it will also assist the research efforts of college students at any level in any discipline The book begins by establishing the underlying philosophical concepts upon which all good research is based preparing students to get down to the nuts and bolts of conducting their own research and evaluating the research of others Fundamental concepts and rules of research are explained both for producers and consumers of social science and educational research Numerous practical examples illustrate the steps in the research process presented in the text There are end of chapter exercises for students to apply the concepts discussed in the chapter Templates for organizing and presenting research provide students with a game plan for success with their research The book ends with an up to date annotated bibliography of beginning and advanced research texts allowing students easy access to books that detail the more specialized research topics While most research books detail one or more method in depth this text provides a broad introduction to many techniques and models used in doctoral dissertations and will be of particular value to those who are consumers of inquiry studies and research reports Key to the overview provided is the annotated bibliography that leads the reader to the next stage of understanding or doing research

Clinical Research Methods in Speech-Language Pathology and Audiology, Fourth Edition David L. Irwin, Jeremy J. Donai, 2024-06-26 With a new chapter on evaluating research articles the fourth edition of Clinical Research Methods in Speech Language Pathology and Audiology continues to be an essential resource for graduate students and clinicians seeking to understand the principles and methodologies involved with clinical research As the demand for evidence based practice continues to rise understanding how to conduct and evaluate research becomes increasingly important in ensuring quality care and professional accountability This text emphasizes how to effectively apply research to clinical practice and decision making processes Readers will also gain knowledge of the significance of research ethics and the ethical considerations involved With the utilization of discussion materials this text will facilitate learning and critical thinking among students as they engage with the material This edition includes information on how to critically review both quantitative and qualitative articles Current trends and updated examples

from speech pathology and audiology literature will assist with real world research situations New to the Fourth Edition New co author Jeremy J Donai AuD PhD providing a fresh perspective New chapter on critically evaluating quantitative and qualitative research articles Examples regarding integration of citations into a literature review Key Features Chapters begin with an outline of covered topics and learning objectives End of chapter discussion questions aid students in applying concepts A comprehensive glossary allows students to easily find and define important terms Numerous references throughout including many ASHA and AAA Codes of Ethics
