foci and at the same time situate current understandings historically in terms of both how they are conceptualized and in terms of past policy practice The chapters themselves are empirically grounded providing illustrations of the conceptual implications contained within them as well as allowing for comparisons across them The serenity within chapters with respect to jurisdictional particularities and contrasts allows readers to consider not only a range of approaches to policy analysis but also the ways in which policies and policy ideas play out in different times and places The sections move from a focus on prevailing policy tendencies through increasingly critical and outsider perspectives on policy They address in turn the contemporary strategic emphasis on large scale reform substantive emphases at several levels on leadership and governance improving teacher quality and conceptualizing learning in various domains around the notion of literacies and concluding finally with a contrasting topic workplace learning which has had less policy attention and thus allows readers to consider both the advantages and disadvantages of learning and teaching under the bright gaze of policy *Bulletin* ,1960

Growing Up in Walltown, Italy Francesca Gobbo,2021-01-11 Growing up in Walltown Italy presents an ethnographic account of the culture of early childhood education as it is constructed in two municipal schools a nursery and a childhood school of an Italian town explored through extensive participant observation and interviews of educators teachers school coordinators mothers and cooks and school staff After providing background information on Italian early childhood education the author describes and interprets the process of children's insertion into the world of the school as a passage whose ritual steps initially accompanied by a parent are carefully prepared by educators and teachers so that the passengers will successfully settle in and become competent members and participants of the respective educational communities The author focuses on the educational and cultural learning that children between six months and five years of age attain by exercising their agency capacity for communication interaction and responsibility and imagination in planned educational projects daily activities as the reading time and convivial appointments as meals The educators and teachers professional and personal engagement and care together with the collaboration of the other school people are thoroughly illustrated and their meaningful attention to and respect for children's pace of learning and participation are pointed out **World Yearbook of Education 2005** David Coulby,Evie Zambeta,2005-01-14 This volume deals with two major and apparently opposing forces within education and society globalization and nationalism Globalization is often considered in economic terms of continued growth of international trade and a concentration of wealth in corporate hands yet it also encompasses technological political and cultural change The World Yearbook of Education 2005 explores the role of the education sector in our globalized knowledge economy and considers the political implications of this in terms of monopolarity and the cultural consequences of homogenization and Americanization The other strand of this study nationalism remains a persistent force within education and society in all parts of the world and this volume examines the extent to which it can fuel conflict at all levels through prejudice and intolerance Concentrating on the epistemological consequences of nationalism leading international thinkers

examine the extent to which it is reflected in the curricula of schools and universities around the world Finally the complex relationship between globalization and nationalism is explored and contributors explore the part that educational institutions and practices play in forming both agendas A wide range of perspectives are employed including post colonial discourse classical economics and sociological theory Nationalism and globalization are both ongoing processes and this volume makes a case for the central role of education in both through its potential to influence change and to act as benevolent force in shaping a global community **Paedagogica Europaea (majalah)** ,1968 *Eudised European Educational Research Yearbook 1999* Council of Europe, Directorate of Education, Culture and Sport, 1999-01-01 This edition of the EUDISED European Educational Research Yearbook provides the educational world with access to the very latest information on ongoing and completed educational research projects Perhaps most importantly for the world of research it enables researchers to get to know their international colleagues and their work better permits researchers and decision makers to make contact and helps to bring about fruitful working relationships A highly recommended reference tool for all educational reference libraries also helping policymakers and educators to make the right choices and avoid duplication of effort
