Edge of Campus, Journal of Black Experience at the U of A(p) Izola Preston,1990 The Edge of Campus Gordon D. Morgan,Izola Preston,1990 **Civil Obedience** Julianne Lewis Adams,Thomas A. DeBlack,1994-01-01 Among the many changes that have occurred in our country in the last forty years few have been as significant as those heralded by the Supreme Court's decision in the Brown vs the Board of Education case in 1954 By declaring racially segregated public schools unconstitutional the court set in motion forces that resulted in the dismantling of the legal structure of Jim Crowism The impact of the Brown decision was national in scope but in no other region was its impact more far reaching and traumatic than in the South In Arkansas as in other Southern states racial segregation was not merely a well established way of life it was firmly imbedded in law While school desegregation generated much noise and some violence elsewhere in the South the city of Fayetteville Arkansas confronted the issue and resolved it with a good deal of dignity and grace becoming the first Southern city to accommodate the Brown decision Through this collection of interviews with those who were involved in the desegregation process students teachers administrators civic leaders and members of local groups we learn of the determination of citizens to obey the law of the land and to see that freedom and equality took priority over their commitment to a school system that patently discriminated against one group of citizens **The Life and Poetry of Frank Stanford** James McWilliams,2025-07 The full throated biography fans have been yearning for Kirkus Starred Review April 2025 When twenty nine year old Frank Stanford put three bullets in his chest on June 3 1978 he ended a life that had been inextricably linked with poetry since childhood Deeply influential but largely unknown outside his corner of the poetry world this prodigy of the American South inspired a cult following that has kept his reputation and work flickering on the periphery of the American literary tradition ever since The Life and Poetry of Frank Stanford offers for the first time a comprehensive study of Stanford's life and work introducing to a broad readership poetry that remains both captivating to poets and in its celebration of everyday experience over academic erudition accessible to those who rarely read poetry Stanford's poems range from one line to his 15 283 line epic The Battlefield Where the Moon Says I Love You The vital thread running through all of his poetry is an ear for language that vies with Walt Whitman in its expansiveness and generosity Stanford's omnivorous attraction to vernacular particularly Black and rural vernacular centered on an admiration for the marginalized and eccentric Blending the Southern Gothic of Faulkner and O'Connor with a racially egalitarian vision his poetry thrives on the stories and traditions of the oppressed and forgotten The themes that preoccupied Stanford's prolific output language sex death class geography commercialism surrealism film race also preoccupied the poet in his daily life which was marked by heavy drinking philandering mental instability emotional abuse and through it all an inveterate desire for beauty Constantly attentive to this tension biographer James McWilliams traces the short and painfully complicated life of this hidden talent who left a lifetime's worth of poetry that through its grounding in the mundane achieved a vision of the transcendent

Nathan, M. Sorber, 2020-09-14 *Change and Continuity in American Colleges and Universities* explores major ideas which have shaped the history and development of higher education in North America and considers how these inform contemporary innovations in the sector. Chapters address intellectual, organizational, social, and political movements which occurred across the nineteenth and twentieth centuries and have impacted the policies, scholarship, and practices enacted at a variety of public and private institutions throughout the United States. Topics addressed include the politics of racial segregation, the place of religion in Higher Education, and models of leadership. Through rigorous historical analyses of education reform cases, this text puts forward useful lessons on how colleges and universities have navigated change in the past and may do so in the future. This text will be of interest to scholars, researchers, and students in the fields of Higher Education, administration, and leadership, as well as the history of education and educational reform.

Remembrances in Black Charles F. Robinson II, Lonnie R. Williams, 2015-02-20 With the admittance in 1948 of Silas Hunt to the University of Arkansas Law School, the university became the first southern public institution of higher education to officially desegregate without being required to do so by court order. The process was difficult, but an important first step had been taken. Other students would follow in Silas Hunt's footsteps, and they along with the university would have to grapple with the situation. *Remembrances in Black* is an oral history that gathers the personal stories of African Americans who worked as faculty and staff and of students who studied at the state's flagship institution. These stories illustrate the anguish, struggle, and triumph of individuals who had their lives indelibly marked by their experiences at the school. Organized chronologically over sixty years, this book illustrates how people of color navigated both the evolving campus environment and that of the city of Fayetteville in their attempt to fulfill personal aspirations. Their stories demonstrate that the process of desegregation proved painfully slow to those who chose to challenge the forces of exclusion. Also, the remembrances question the extent to which desegregation has been fully realized.

Junne, 2000-05-30 Almost a century before their arrival in the English New World, Blacks appeared alongside the Spanish in what is now the American West. Through their families, communities, and institutions, these Western Blacks left behind a long history which is just now beginning to receive systematic scholarly treatment. Comprehensively indexing a variety of research materials on Blacks in the North American West, Junne offers an invaluable navigational tool for students of American and African American history. Entries are organized both geographically and topically and cover a broad range of subjects including cross-cultural interaction, health, art, and law. Contains a complete compilation of African American newspapers.

Books In Print 2004-2005 Ed Bowker, Staff, Staff Bowker, Ed, 2004 *Reconstructing the Campus* Michael David Cohen, 2012 The Civil War transformed American life. Not only did thousands

of men die on battlefields and millions of slaves become free cultural institutions reshaped themselves in the context of the war and its aftermath The first book to examine the Civil War s immediate and long term impact on higher education *Reconstructing the Campus* begins by tracing college communities responses to the secession crisis and the outbreak of war Students made supplies for the armies or left campus to fight Professors joined the war effort or struggled to keep colleges open The Union and Confederacy even took over some campuses for military use Then moving beyond 1865 the book explores the war s long term effects on colleges Michael David Cohen argues that the Civil War and the political and social conditions the war created prompted major reforms including the establishment of a new federal role in education Reminded by the war of the importance of a well trained military Congress began providing resources to colleges that offered military courses and other practical curricula Congress also as part of a general expansion of the federal bureaucracy that accompanied the war created the Department of Education to collect and publish data on education For the first time the U S government both influenced curricula and monitored institutions The war posed special challenges to Southern colleges Often bereft of students and sometimes physically damaged they needed to rebuild Some took the opportunity to redesign themselves into the first Southern universities They also admitted new types of students including the poor women and sometimes formerly enslaved blacks Thus while the Civil War did great harm it also stimulated growth helping especially in the South to create our modern system of higher education
