a variety of methods to differentiate their contributions from his In this wide ranging study Brian Vickers takes up and extends these discussions presenting compelling evidence that Shakespeare wrote Titus Andronicus together with George Peele Timon of Athens with Thomas Middleton Pericles with George Wilkins and Henry VIII and The Two Noble Kinsmen with John Fletcher In Part One Vickers reviews the standard processes of co authorship as they can be reconstructed from documents connected with the Elizabethan stage and shows that every major and most minor dramatists in the Elizabethan Jacobean and Caroline theatres collaborated in getting plays written and staged This is combined with a survey of the types of methodology used since the early nineteenth century to identify co authorship and a critical evaluation of some stylometric techniques Part Two is devoted to detailed analyses of the five collaborative plays discussing every significant case made for and against Shakespeare s co authorship Synthesizing two centuries of discussion Vickers reveals a solidly based scholarly tradition building on and extending previous work identifying the co authors contributions in increasing detail The range and quantity of close verbal analysis brought together in Shakespeare Co Author present a compelling case to counter those conservators of Shakespeare who maintain that he is the sole author of his plays

Imagination in Transition Bruce Barton, 2005 The move from playwright to cinema screenwriter and director is a rare accomplishment No American writer has achieved this transition with the level of success enjoyed over the past two decades by David Mamet Over this same period Mamet has also authored a body of aggressive critical writing that demonstrates enduring aesthetic and ideological preoccupations regularly expressed as a set of confident best practices However the relationship between theory and practice becomes particularly and productively rowdy at the sites of Mamet s transitional media crossing Imagination in Transition establishes a flexible set of core characteristics of Mamet s dramatic and theatrical dramaturgy and then compares these with the textual and cinematographic strategies employed by Mamet in his initial transitional feature films This study then offers both an innovative approach to Mamet s work and an illuminating framework for cross media analysis
