Familia y educación familiar Ángeles Gervilla Castillo,2019-12-16 La familia ocupa un lugar preferente en la investigación psicológica sociológica y por supuesto en el ámbito educativo especialmente en la época actual. Aunque es frecuente hablar de crisis de la familia simultáneamente se constata la emergencia de otras formas familiares por ello surge la necesidad de investigar la acción educativa en la diversidad de familias tanto en el desarrollo personal de cada uno de sus integrantes como en su proyección social. En esta obra se estudian los interrogantes que afectan a la familia y a sus actuaciones en contextos educativos. En qué medida los cambios sociales están afectando a la familia. Cómo se enfrenta el educador a las diferentes estructuras familiares. ¿Qué significa ser hoy padre/madre? ¿Qué tipo de interacciones se producen entre los miembros de distintas formas familiares: nuclear, extensa, reconstituidas, parejas de hecho, etc.? A través de sus páginas se exponen temas tan nucleares como las relaciones interpersonales en la familia, la educación en valores, las diversas situaciones familiares, la influencia de los medios de comunicación, las relaciones entre la familia y el centro escolar, las escuelas de padres y madres, el desarrollo comunitario y la familia ante las necesidades educativas especiales. Familias y educación familiar es un libro básico no sólo para educadores sino también para las madres y los padres que quieran enriquecer sus vínculos familiares.

Enrique Gervilla Castillo,2003-01-11 The physical and affective closeness of certain persons who have given us our biological being condition and determine our way of being human as only with the help of others can we learn how to become persons. The family given the importance of the first experiences becomes the first school of humanity and humanization. The book wishes to give an answer to a great need felt by educators, teachers, professors, parents, mothers and children as is the formation or present education in the family environment. The social changes are so rapid and the family models so diverse that it becomes urgent and necessary to offer contributions and orientations in this regard in this moment of crisis. The family counsellors and other professionals will find appropriate orientations here to two big challenges of today's family: to teach how to live and to share life in a more and more plural society. Different specialists and different Spanish universities from their knowledge and experience have given a response to these themes and help the reader to understand and focus the different family models that exist currently in our society.

General Directory for Catechesis / Spanish , La familia. Una comunidad de amor, educación y desarrollo M. Sc. Olga Franco García,2022-09-19 La familia desde tiempos inmemoriales es el punto esencial de la estructuración de la personalidad de los niños. Así comienza la introducción de un ejemplar que ha sido fruto de muchos momentos de reflexión. Sus páginas serán de gran utilidad para el trabajo que los educadores preescolares deben realizar con la familia y harán sentir el ambiente de amor y respeto en que deben desarrollarse estos vínculos.
