Educar Elegir La Vida:

Education for Choosing Life Cardinal Jorge Mario Bergoglio, 2014-03-07 Times of crisis reveal what we are made of urgently rousing the voices that restore meaning to uncertain wandering So begins the foreword of this book providing the framework in which these messages to teachers were given by Pope Francis while he was cardinal archbishop of Buenos Aires Although these messages were originally given to educators in Argentina in a certain time and place with particular social political and economic problems in view they have universal appeal The challenge to form the whole person which involves more than providing a child with the ability to calculate is relevant to teachers everywhere regardless of their particular circumstances The cardinal began these reflections with the assertion that teaching is an act of hope which requires a vision of what it means to be human the belief that this vision can be realized to some degree even in a fallen world and the creativity to find ways to achieve it Obstacles to human development must not discourage teachers the cardinal wrote If we look at Jesus incarnate Wisdom of God we can realize that difficulties become challenges challenges appeal to hope and generate the happiness of recognizing them as architects of something new All this undoubtedly drives us to continue giving the best of ourselves Filled with the faith hope and charity as well as the practical wisdom that have marked the pontificate of Pope Francis these reflections are being made available in English to give encouragement and inspiration to educators in the United States *The Roots of Pope Francis's Social and Political Thought* Thomas R. Rourke, 2016-08-30 In *The Roots of Pope Francis's Social and Political Thought* Thomas R. Rourke traces the development of Pope Francis's thinking from his time as a Jesuit provincial through today Meticulously researched the book draws on decades of previously untranslated writings from Father Jorge Bergoglio SJ who went on to become archbishop and cardinal this volume also references his recent writings as pope The book explores the deepest roots of Pope Francis's thinking beginning with the experience of the Jesuit missions in Argentina 1500s 1700s showing how both the success and tragedy of the missions profoundly formed his social and political views Subsequent chapters explore influences from the Second Vatican Council through today regarding culture politics and economics In Pope Francis's understanding there is a perpetual tension between the attempts to redeem the social order through the Gospel and the never ending attempts to dominate peoples and their lands through a variety of imperial projects that come from the powerful What emerges is a profoundly Christian approach to the social political and economic problems of our time The Pope is portrayed as an original thinker independent of ideological currents rooted in the Gospels and the tradition of Catholic social thought In a time of division and violence the writings of Pope Francis often point to the path of peace and justice *Pope Francis* Mario I Aguilar, 2014-05-29 Pope Francis His Life and Thought paints a compelling picture of a truly remarkable pope considering his life in detail until his election as Pope Francis in 2013 Cardinal Jorge Bergoglio was a highly unusual candidate for the papacy for two main reasons the pope from far away is the first non European to be elected and furthermore he began his

career as a Jesuit one of God's soldiers. Members of the order traditionally do not ascend the hierarchy of the Church and it took a personal request from Pope John Paul II for Bergoglio to leave the Society of Jesus and accept his appointment as bishop. Bergoglio's theological principles have been profoundly shaped by these two factors. However, the author also reveals that the evolution of his thought was deeply affected by his simple Argentinean upbringing and his fearless work in the slums of Buenos Aires as a young Jesuit and as a senior member of the Church. Bergoglio has consistently emphasised the importance of alleviating the suffering of the poor following the teaching of Vatican II and in keeping with his own unflinching morality. This volume reveals Pope Francis as a remarkably humble and altruistic man, doctrinally conservative and engaged less in politics than in the struggle to re-centre the Church at the margins of society. It will be of great interest to any reader who wishes to know more about this inspiring individual. *Pope Francis* Mariano Fazio, 2017-03-31. From 2000 to 2013 Cardinal Jorge Mario Bergoglio of Buenos Aires and Msgr Mariano Fazio, regional vicar of Opus Dei, were good friends and frequent collaborators in their native Argentina. Now the Cardinal is known to the whole world as Pope Francis. In *Pope Francis: Keys to His Thought*, Monsignor Fazio paints a close-up portrait of his old friend that sheds revealing light on his deep spirituality and the intense pastoral commitment that motivates this remarkable man in his leadership of the Catholic Church. The book examines major themes in the thought of Pope Francis: the centrality of evangelization, the need to reach out to people where they are, the intimate connection between faith and culture, the importance of popular piety, and makes clear how all are grounded in his deep love for Christ. Personal anecdotes dramatize his warm humanity and lively sense of humor. Here, in short, is an intimate and revealing perspective on one of the most exciting and appealing religious figures of our time.

Francis Mario Escobar, 2013-05-21. First Jesuit, First Latin American. And a new pope who chose as his first act a simple request: please pray for me. The recent resignation of Pope Benedict XVI took the world by surprise and for good reason. More than 600 years had passed since a pope last left his post. Jorge Mario Bergoglio, now Pope Francis, is a man of prayer, a man of action, and a humble man who has always promoted others over himself. In fact, it was Bergoglio who bowed out of the running in the papal election of 2005 to facilitate the rise of Benedict XVI. However, the new pope faces a Catholic Church in crisis: a church that has lost the media pull of John Paul II and is still hounded by pedophile scandals and the filtration of documents from former papal administrations. His first year may not be an easy one, but neither this man nor the church itself has ever shied away from the challenges thrust upon them. Pope Francis is austere and simple but has vast theological training. He is a man of his time but one who also travels by subway and bus just like any other citizen. Tirelessly fighting poverty and marginalization, he is a beacon of hope for the poor, persecuted sectors of the church. Has a Catholic spring finally arrived after a very long winter? Francis is the complete biography of a humble man who has suddenly become one of the most powerful and influential men on the planet. *The Mind of Pope Francis* Massimo Borghesi, 2018-08-15. A commonly held impression is that Pope Francis is a compassionate shepherd and determined leader, but that he lacks the intellectual

depth of his recent predecessors Massimo Borghesi's *The Mind of Pope Francis* Jorge Mario Bergoglio's *Intellectual Journey* dismantles that image Borghesi recounts and analyzes for the first time Bergoglio's intellectual formation exploring the philosophical theological and spiritual principles that support the profound vision at the heart of this pope's teaching and ministry Central to that vision is the church as a *coincidentia oppositorum* holding together what might seem to be opposing and irreconcilable realities Among his guiding lights have been the Jesuit saints Ignatius and Peter Faber philosophers Gaston Fessard Romano Guardini and Alberto Methol Ferrer and theologians Henri de Lubac and Hans Urs von Balthasar Recognizing how these various strands have come together to shape the mind and heart of Jorge Mario Bergoglio offers essential insights into who he is and the way he is leading the church Notably this groundbreaking book is informed by four interviews provided to the author via audio recordings by the pope himself on his own intellectual formation major portions of which are published here for the first time
