Youth, Education and Employment Keith Watson, 2022-10-12 First published in 1983 Youth Education and Employment tries to highlight the scale of the problem of youth unemployment in industrial societies by examining it from a variety of angles and by drawing upon developments in other countries including those of the developing world Examples are taken from France Germany Denmark and Sweden as well as from the United Kingdom and also from Cuba and small island communities This important volume shows the underlying causes of youth unemployment and offers positive solutions in particular stressing the need for a reappraisal of many educational practices This book is a must read for educationists policy makers and students of public policy *Vocational Education in the Nordic Countries* Christian Jørgensen, Ole Olsen, Daniel Thunqvist, 2018-05-15 Vocational Education in the Nordic Countries Learning from Diversity is the second of two books that disseminates new and systematic knowledge on the strengths and weaknesses of the different models of vocational education and training VET in four Nordic countries Vocational education in Europe has resisted standardisation to a higher degree than other fields of education and during the last decade there has been a growth in international comparative VET research While the Nordic countries provide an ideal case for comparative education studies the literature in English on the Nordic VET systems is at present very limited This book provides thorough examinations of VET in Sweden Denmark Norway and Finland Each section examines the current challenges for VET compares how these challenges are managed and explores recent reforms and institutional innovations Contributors also analyse institutions and policies at the national level and include comparative studies of two occupations at the micro level in the four countries The book explores what can be learned from the diversity of the VET systems in the Nordic countries which otherwise have many similarities and share a

Part One* David Finegold,Laurel McFarland,William Richardson,1993-01-01 For Part Two please see https://play.google.com/store/books/details/David_Finegold_Something_Borrowed_Something_Blue_P?id=CvXCgAAQBAJ A distinct pattern emerged in the British education and training reform process in the latter half of the 1980s A government minister or a team of policy experts paid a brief study visit to the United States a short time later a new initiative was announced which bore a close resemblance to a

US programme More recently the flow of policy ideas across the Atlantic appears to have reversed direction This book develops a three tiered approach to the analysis of policy borrowing The first section draws on a number of different literatures relevant to this area to create an analytical framework for the study of policy borrowing Section Two examines the specific context in which these borrowing episodes occurred asking Why did Britain look to America for policy inspiration in the latter half of the 1980s The final section examines individual cases of policy borrowing at the local and national levels attempting to distill lessons about the borrowing process

Youth, Diversity and Employment Rune Halvorsen, Bjørn Hvinden, 2018 Including youth in the labour market is a major challenge facing many European countries This book examines the transitions from education to employment with a focus on Nordic youth in the broader European context The book combines insights from the social sciences and law by linking the challenges facing young people in general and the more specific barriers facing the more vulnerable groups of young people Youth Diversity and Employment provides original insights on the interdependencies or interaction between redistributive and regulatory social policies
