Education for Traditional Food Procurement in the Orinoco Delta Carl Ortwin Sauer, 1977 **Managing Coastal and Inland Waters** Kenneth Ruddle, Arif Satria, 2010-09-08 Besides the erroneous assumption that tropical fisheries are open access the cases demonstrate that pre existing systems 1 are concerned with the community of fishers and ensuring community harmony and continuity 2 involve flexible multiple and overlapping rights adapted to changing needs and circumstances 3 that fisheries are just one component of a community resource assemblage and depend on both the good management of linked upstream ecosystems and risk management to ensure balanced nutritional resources of the community and 4 pre existing systems are greatly affected by a constellation of interacting external pressures

School Desegregation

Research Jeffrey Prager, Douglas Longshore, Melvin Seeman, 2012-12-06 The desegregation situation is the keynote theme of the following chapters I Each of them touches on a different dimension of the situation the historical the temporal the spatial But the reader perusing the essays with the situation in mind should remember that the desegregation situation should not be interpreted literally Authorities and adults certainly school age children probably are influenced by their awareness of a sequence of past and future situations Some may even operate with William James's 1890 p 608 notion of the specious present that has melted in our grasp fled ere we could touch it gone in the instant of becoming thus reducing the potency of the present situation Others may be dancing to a slower tempo of change thus becoming more responsive to the present situation Whatever the perceived tempo many must share the view that the future may reverse the direction of the past Some may see that new future direction as unswerving unending or long lasting others may see it as short lived And it is through attention to the phenomenological description of desegregation that these issues can be explored a theme that is considered in several of the following chapters

Implementation of decentralised food procurement programmes and the impact of the policy, institutional and legal enabling environment: Food and Agriculture Organization of the United Nations, 2018-10-26 The paper aims to demonstrate the role of pilot initiatives in supporting this adaptation process Different procurement modalities impose different challenges and require different types of support from and adaptations to policy institutional and legal frameworks Pilot initiatives can play an important role in testing and providing a better understanding of the challenges and opportunities of different decentralised procurement models supporting the choice of the most appropriate one within the country context and in particular on informing the adaptations needed to these frameworks for effective implementation of the modality chosen

The Oxford Handbook of the Archaeology of Childhood Sally Crawford, Dawn Hadley, Gillian Shepherd, 2018-05-10 Real understanding of past societies is not possible

without including children and yet they have been strangely invisible in the archaeological record Compelling explanation about past societies cannot be achieved without including and investigating children and childhood However marginal the traces of children s bodies and bricolage may seem compared to adults archaeological evidence of children and childhood can be found in the most astonishing places and spaces The archaeology of childhood is one of the most exciting and challenging areas for new discovery about past societies Children are part of every human society but childhood is a cultural construct Each society develops its own idea about what a childhood should be what children can or should do and how they are trained to take their place in the world Children also play a part in creating the archaeological record itself In this volume experts from around the world ask questions about childhood thresholds of age and growth childhood in the material culture the death of children and the intersection of the childhood and the social economic religious and political worlds of societies in the past

Cultural Transmission Ute Schönplüg,2008-11-10 Cultural Transmission covers psychological developmental social and methodological research on how cultural information is socially transmitted from one generation to the next within families Studying processes of cultural transmission may help analyze the continuity or change of cultures including those that have to cope with migration or the collapse of a political system An evolutionary perspective is elaborated in the first part of the book the second takes a cross cultural perspective by presenting international research on development and intergenerational relations in the family the third provides intra cultural analyses of mechanisms and methodological aspects of cultural transmission Made up of contributions by experts in the field this source book is intended for anyone with interests in cultural issues especially researchers and teachers in disciplines such as psychology social and behavioral sciences and education and for applied professionals in culture management and family counseling as well as professionals dealing with migrants

The Anthropology of Childhood David F. Lancy,2022-03-10 How are children raised in different cultures What is the role of children in society How are families and communities structured around them Now in its third edition this deeply engaging book delves into these questions by reviewing and cataloging the findings of over 100 years of anthropological scholarship dealing with childhood and adolescence It is organized developmentally moving from infancy through to adolescence and early adulthood and enriched with anecdotes from ethnography and the daily media to paint a nuanced and credible picture of childhood in different cultures past and present This new edition has been expanded and updated with over 350 new sources and introduces a number of new topics including how children learn from the environment middle childhood and how culture is transmitted between generations It remains the essential book to read to understand what it means to be a child in our complex ever changing world

Agrobiodiversity, School Gardens and Healthy Diets Danny Hunter,Emilita Monville-Oro,Bessie Burgos,Carmen Nyhria Roel,Blesilda M. Calub,Julian Gonsalves,Nina Lauridsen,2020-03-03 This book critically assesses the role of agrobiodiversity in school gardens and its contribution to diversifying diets promoting healthy eating habits and improving nutrition among schoolchildren as well as

other benefits relating to climate change adaptation ecoliteracy and greening school spaces Many schoolchildren suffer from various forms of malnutrition and it is important to address their nutritional status given the effects it has on their health cognition and subsequently their educational achievement Schools are recognized as excellent platforms for promoting lifelong healthy eating and improving long term sustainable nutrition security required for optimum educational outcomes This book reveals the multiple benefits of school gardens for improving nutrition and education for children and their families It examines issues such as school feeding community food production school gardening nutritional education and the promotion of agrobiodiversity and draws on international case studies from both developed and developing nations to provide a comprehensive global assessment This book will be essential reading for those interested in promoting agrobiodiversity sustainable nutrition and healthy eating habits in schools and public institutions more generally It identifies recurring and emerging issues establishes best practices identifies key criteria for success and advises on strategies for scaling up and scaling out elements to improve the uptake of school gardens Mushrooms in Forests and Woodlands Anthony B.

Cunningham,Xuefei Yang,2012-06-25 Many mushrooms or the fruits of fungi are extremely valuable wild gathered products which are utilised for both their medicinal properties and as food In many of the world s tropical and temperate forests they are the primary source of income for the people who live there These forests range from temperate woodlands and small forests to high altitude forests in the Himalaya and tropical miombo woodlands in south central Africa In south west China over 200 species of wild fungi in 64 genera are commercially traded while in Europe and North America woodlands and small forests are the source of many highly prized mushrooms and an essential resource for many small enterprises and collectors Yet the increased demand for timber has resulted in the rapid expansion of forestry which in turn has destroyed the natural habitat of many fungi unbalancing both forest economics and ecology Despite the economic social and cultural values of fungi there is a general lack of understanding of their importance to local livelihoods and forest ecology This book aims to fill this gap and extends the People and Plants Conservation Series beyond the plant kingdom into the related world of fungi and mushrooms It demonstrates the crucial roles that fungi play in maintaining forest ecosystems and the livelihoods of rural people throughout the world while providing good practice guidelines for the sustainable management of this resource and an assessment of economic value It brings together the perspectives of biologists anthropologists and forest and woodland managers to provide a unique inter disciplinary and international overview of the key issues **Parmana** Anna Curtenius

Roosevelt,2014-05-10 Parmana Prehistoric Maize and Manioc Subsistence along the Amazon and Orinoco argues for a reinterpretation of prehistoric subsistence in the Greater Amazonian region of South America Based on the preliminary results of an archaeological fieldwork in Parmana of the Orinoco basin Venezuela the book re evaluates some of the assumptions made by anthropologists about human adaptation and the development of aboriginal culture in Amazonia Comprised of six chapters this volume begins with a review of the theories of five scholars of aboriginal Amazonia in terms of

logic and documentation Julian Steward Betty Meggers Robert Carneiro Donald Lathrap and Daniel Gross The next chapter presents an alternative theory the hypothesis of technological change and explains its theoretical framework The demographic theory of cultural evolution is discussed and its basis in general evolutionary theory is explained Subsequent chapters focus on the empirical evidence for the hypothesis in studies of tropical resources with emphasis on the productivity of tropical lowland soils and Amazonian faunal resources as well as the roles of maize and manioc in prehistoric Amazonian subsistence the physical and biological characteristics of the Parmana region as an environment for prehistoric human adaptation and the history of subsistence and population growth in prehistoric Parmana The final chapter suggests possible directions for future research on the development of aboriginal culture in Amazonia The book is illustrated with numerous maps tables and photographs most of them never published before This monograph should be of interest to archaeologists and anthropologists
