Autonomy in Education Walter Berka,Jan De

Groof,Hilde Penneman,European Association for Education Law and Policy,2000-04-13 The push towards greater autonomy

is one of the three main trends in every modern educational policy alongside quality assurance and quality evaluation

techniques and the need to devote attention to special and often disadvantaged target groups It is however difficult to derive

a unified concept of autonomy from the comparative indicators which are published on a regular basis and it has emerged

that there are significant differences depending on the specific area and the administrative organisation of education in the

country in question During the discussions of the annual Congress of the European Association for Education Law and Policy

ELA in Salzburg 1998 it was apparent that autonomy has to be considered in its various applications Autonomy for school

boards is realised through management administrative mechanisms management of staff and pedagogical options Autonomy

of administration requires competence the willingness to establish an autonomous administration and awareness of each

party s responsibility in the educational process The contents of this Yearbook are an answer to the question of how

legislatures are responding to the trend towards greater responsibility decentralisation and autonomy It is an overview of the

efforts made by the Member States of the European Union to apply the principle of subsidiarity *Departments of Labor*

Brewer,Lawrence O. Picus,2014-08-25 Economics can be a lens for understanding the behavior of schools districts states and

nations in meeting education needs of their populaces as well as for understanding the individual decisions made by

administrators teachers and students Insights from economics help decision makers at the state level understand how to

raise and distribute funds for public schools in an equitable manner for both schools and taxpayers Economics also can assist

researchers in analyzing effects of school spending and teacher compensation on student outcomes And economics can

provide important insights into public debates on issues such as whether to offer vouchers for subsidizing student attendance

at private schools This two volume encyclopedia contains over 300 entries by experts in the field that cover these issues and

more Features This work of 2 volumes in both print and electronic formats contains 300 350 signed entries by significant

figures in the field Entries conclude with cross references and suggestions for further readings to guide students to in depth resources Although organized in A to Z fashion a thematic Reader s Guide in the front matter groups related entries by topic Also in the front matter a chronology provides students with historical perspective on the development of education economics and finance as a field of study The entire work concludes with a Resources appendix and a comprehensive Index In the electronic version the index Reader s Guide and cross references combine to provide effective search and browse capabilities

Creating Compassionate Classrooms: Understanding the Continuum of Disabilities and Effective Educational Interventions Nicholas D. Young,Angela C.Fain,Teresa A. Citro,2019-05-02 Throughout the chapters of this book the reader will be introduced to the thirteen disability categories included in IDEA specific learning disabilities emotional behavioral disorders autism other health impaired intellectually disabled multiple disabilities speech or language impairments traumatic brain injury hearing impairment deaf blind deafness visual impairment and orthopedic impairment using the legally established definitions Lengthy descriptions of best practices modifications and accommodations follow offering a complete picture of each disability and how educators and parents collaboratively can assist the struggling student To set the stage the book begins with chapters that discuss special education in general response to intervention as an intermediary step in the academic continuum of support and the individualized education plan process Subsequent chapters examine each of the thirteen aforementioned IDEA disability categories which have not been commonly incorporated into one comprehensive resource however for the sake of brevity some disability categories have been combined when doing so did not impact practice implications Emphasis is placed on effective classroom strategies and interventions associated with each disability category with the intent of providing practitioners and those who support them with the information and tools necessary to support students with identified educational needs To the extent possible the primary authors sought to ensure this resource was practical and user friendly for educators who work directly with students with the range of recognized disabilities This book demystifies the special education process and disability categories as well as offers educators and their families the tools to help our students who have one or more disabilities find life long success Ensuring the best for our students with disabilities requires that we first acknowledge and support the hard work and deep commitment of those professionals and parents guardians who devote their lives to teaching reaching mentoring and advocating for those most vulnerable in our classrooms

Federal Credit Assistance and Insurance Programs United States. Congress. House. Committee on Energy and Commerce. Subcommittee on Oversight and Investigations,1990 [International Handbook of Educational Policy](#) Nina Bascia,Alister Cumming,Amanda Datnow,Kenneth Leithwood,David Livingstone,2008-05-14 Nina Bascia Alister Cumming Amanda Datnow Kenneth Leithwood and David Livingstone This Handbook presents contemporary and emergent trends in educational policy research in over fty chapters written by nearly ninety leading researchers from a number of countries It is organized into ve broad sections which capture many of the current dominant educational policy

foci and at the same time situate current understandings historically in terms of both how they are conceptualized and in terms of past policy practice The chapters themselves are empirically grounded providing illustrations of the conceptual implications contained within them as well as allowing for comparisons across them The serenity within chapters with respect to jurisdictional particularities and contrasts allows readers to consider not only a range of approaches to policy analysis but also the ways in which policies and policy ideas play out in different times and places The sections move from a focus on prevailing policy tendencies through increasingly critical and outsider perspectives on policy They address in turn the contemporary strategic emphasis on large scale reform substantive emphases at several levels on leadership and governance improving teacher quality and conceptualizing learning in various domains around the notion of literacies and concluding finally with a contrasting topic workplace learning which has had less policy attention and thus allows readers to consider both the advantages and disadvantages of learning and teaching under the bright gaze of policy
