International Encyclopedia of Women website Featuring comprehensive global coverage of women's issues and concerns from violence and sexuality to feminist theory the Routledge International Encyclopedia of Women brings the field into the new millennium In over 900 signed A-Z entries from US and Europe Asia the Americas Oceania and the Middle East the women who pioneered the field from its inception collaborate with the new scholars who are shaping the future of women's studies to create the new standard work for anyone who needs information on women related subjects Governing the Child in the New Millennium Kenneth Hultqvist, Gunilla Dahlberg, 2013-01-11 The contributors and editors of this volume begin from the assumption that the changes wrought by globalization compel us to reflect upon the status of the child and childhood at the end of the 20th century Their essays consider what techniques and technologies are used to govern the child what role the family plays what is global and what is culturally specific in the changes and how the subject is constructed and construed **Working with Children and Young People** Lindsay O'Dell, Stephen Leverett, 2018-06-26 Traditional ways of working with children and young people are giving way to new practices Where practice solutions previously tended to be imposed on children and young people professionals are now looking to engage them as vital partners in actively negotiated and co-constructed models of working Combining social ecological and social constructionist perspectives drawn from a range of academic and practice disciplines Working with Children and Young People explores and interrogates how ideas about childhood policy and professional discourses change over time and in turn affect the issues faced by young people and their families In particular this important text Develops a critical and reflective approach to knowledge and practice explored vividly across a wide range of practice settings Presents a new vision where the focus is centrally on the child or young person and where dominant ideas are challenged Explores how key concerns such as professional power and children's rights embed themselves in working relationships Working with Children and Young People provides an innovative critical framework for all students on vocational and professional courses involving work with children and young people It also offers illuminating reading for practitioners working with the 0-18 age group whether in the statutory voluntary or private sectors *Approaches to Gender and Spoken Classroom Discourse* Helen Sauntson, 2015-12-11 Gender is a hotly debated topic in the field of education The role that language plays in educational contexts especially in the classroom has long been acknowledged Innovatively combining approaches in the analysis of classroom discourse this book offers rich empirical findings as well as being theoretically interesting and valuable **Undoing Privilege** Professor Bob Pease, 2010-08-12 For every group that is oppressed another group is privileged In Undoing Privilege Bob Pease argues that privilege as the other side of oppression has received insufficient attention in both critical theories and in the practices of social change As a result dominant groups have been allowed to reinforce their dominance Undoing Privilege explores the main sites of privilege from Western dominance class elitism and white and patriarchal privilege to the less examined sites of heterosexual and able bodied privilege Pease points out that while the vast majority of people may be oppressed on one level many are also

privileged on another. He also demonstrates how members of privileged groups can engage critically with their own dominant position and explores the potential and limitations of them becoming allies against oppression and their own unearned privilege. This is an essential book for all who are concerned about developing theories and practices for a socially just world.
