Educational Leadership A Critical Pragmatic Perspective:

Educational Leadership Spencer J. Maxcy, 1991-09-23 Underlying the controversy surrounding educational reform and the crisis facing American public education today is the question of leadership Who is to exercise it and what direction should it take In his systematic redefinition of educational leadership Spencer J Maxcy develops a democratic participatory model of leadership at all levels Drawing on the work of philosophers from John Dewey and William James to contemporary neo pragmatists he explores the nature of shared leadership and its potential to foster socio cultural reform through schooling Maxcy begins with a review of leadership theory and the ways in which competing theories continue to affect education New directions in research are assessed particularly the shift away from treating educational leadership as a form of management rather than a relational phenomenon In examining the implications of a philosophy of democratic leadership the author takes his inquiry into practical areas including the empowerment of teachers the sharing of leadership among teachers and administrators the preparation of educational leaders for a postmodern era and the development of leadership qualities in children The current trend toward decentralization of schooling is discussed in light of his proposed model together with the demand for moral vision in education and the need for creativity as an integral part of the educational process Making a convincing case for the distribution of leadership among the administration teachers students and the larger community this book will be of interest to anyone concerned with critical issues in education from policy makers and educators to the informed general reader

Educational Leadership in Becoming Nuraan Davids, Yusef Waghid, 2016-08-25 *Educational Leadership in Becoming* reconsiders educational leadership in its current forms and presents a more plausible form of educational leadership to contend with the complexities currently found in universities and schools Much of the literature in vogue concerning educational leadership ranges from transactional to transformative representations of the concept in relation to educational management and policy curriculum inquiry and pedagogical action The primary aim of this book is to revisit some of the dominant understandings of educational leadership and to offer an extended view of the practice along the lines of potentiality and becoming Davids and Waghid argue that all current forms of educational leadership are insufficient to enact responsible human action particularly when it comes to addressing the combined issues

of globalisation and equitable redress and transformation whether in relation to leading schools or universities The primary objective of the book is to draw on the Agambian notion of becoming in order to show that an educational leadership in becoming is better placed to not only address the myriad challenges besetting education but to also enhance the potential of leadership in action The book addresses an international audience by analysing conceptions of transformative leadership and should be read by anyone who is interested in education and educational leadership as well as the impact of neoliberal agendas on education and society It should also appeal to those interested in the philosophy of education

Educational Leadership and Moral Literacy Patrick M. Jenlink, 2014-03-18 What makes a moral person moral Who decides what morality means What makes leadership practice moral In today's schools what stands as moral leadership These are questions that reflect the complexity integral to the calculus of human morality especially in a world that is defined daily by its variant meanings of morality its acts of immorality The school as an educational setting is or should be a decidedly moral center of the society it is the natural intersect between the family and the multi dimensional nature of public life Educational Leadership and Moral Literacy addresses these questions situating the reader in a conversation that examines the meaning and nature of moral leadership through the lens of moral literacy and the dispositional aims of moral leadership in educational settings The contributing authors extend an argument that the work of leader educators and practitioners alike must continuously be re articulated around the dispositional aims aligned with a moral democratic education Educators must be concerned with developing the moral intellectual and aesthetic dimensions of the educational leader as a moral person

New Directions in Educational Leadership Theory Scott Eacott, Colin Evers, 2018-02-02

Educational leadership has a rich history of epistemological debate From the Theory Movement of the 1950 1960s through to Greenfield's critique of logical empiricism in the 1970s the emergence of Bates and Foster's Critical Theory of educational administration in the 1980s and Evers and Lakomski's naturalistic coherentism from 1990 to the present time debates about ways of knowing doing and being in the social world have been central to advancing scholarship However since the publication of Evers and Lakomski's work questions of the epistemological preliminaries of research have become somewhat marginalised This is not to suggest that such discussions are not taking place but rather that they have been sporadic and piecemeal In *New Directions in Educational Leadership Theory* the contributors sketch possible alternatives for advancing scholarship in educational leadership The coherence of this volume comes not from the adoption of a single theoretical lens but rather from its engagement with epistemology ontology and methodology The choice of the plural alternatives is deliberate and its use is to evoke the message that there is more than one way to advance knowledge The approaches adopted across this collection offer fruitful directions for the field and hopefully will stimulate substantive dialogue and debate in the interest of advancing knowledge This book was originally published as a special issue of *Educational Philosophy and Theory*
