Elmtown's Youth August de Belmont Hollingshead,1949 *Elmtown's Youth* August de Belmont Hollingshead,1965

Elmtown's Youth August B. Hollingshead,1954 *Anthropologists and the Rediscovery of America, 1886-1965* John S. Gilkeson,2010-09-20 This book examines the intersection of cultural anthropology and American cultural nationalism from 1886 when Franz Boas left Germany for the United States until 1965 when the National Endowment for the Humanities was established Five chapters trace the development within academic anthropology of the concepts of culture social class national character value and civilization and their dissemination to non anthropologists As Americans came to think of culture anthropologically as a complex whole far broader and more inclusive than Matthew Arnold s the best which has been thought and said so too did they come to see American communities as stratified into social classes distinguished by their subcultures to attribute the making of the American character to socialization rather than birth to locate the distinctiveness of American culture in its unconscious canons of choice and to view American culture and civilization in a global perspective

On the Edge of Commitment Stephen Lawrence Morgan,2005 This book offers a new model of educational achievement to explain why some students are committed to preparation for college *Foundations of Education* Samuel M. Craver,Maike Ingrid Philipsen,2011-06-30 Foundations of Education is organized around the major problems facing contemporary American education It offers a thorough scholarly treatment of these problems from historical philosophical and sociological perspectives bringing together relevant findings from those disciplines to analyze and illuminate a wide range of issues Each chapter focuses on a core topic including race gender equal opportunities school governance to give students a solid overview providing intellectually sound material that offers real depth and challenges students to think creatively Packed with exercises discussion questions international case studies for comparative purposes and supported by a fully up to date companion website this is a text that responds to current developments changes and trends in teacher education Foundations of Education will prepare a new generation of educators for a globalized and technology driven society that needs to be aware of its best educational traditions its current problems and its future possibilities *Teen Spirit* Paul Howe,2020-11-15 Teen Spirit offers a novel and provocative perspective on how we came to be living in an age of political immaturity and social turmoil Award winning author Paul Howe argues it s because a teenage mentality has slowly gripped the adult world Howe contends that many features of how we live today some regrettable others beneficial can be traced to the emergence of a more defined adolescent stage of life in the early twentieth century when young people started spending their formative developmental years with peers particularly in formal school settings He shows how adolescent qualities have slowly seeped upward where they have gradually reshaped the norms and habits of adulthood The effects over the long haul Howe contends have been profound in both the private realm and in the public arena of political economic and social interaction Our teenage traits remain part of us as we move into adulthood so much so that some now need instruction

manuals for adulting Teen Spirit challenges our assumptions about the boundaries between adolescence and adulthood Yet despite a cultural system that seems to be built on the ethos of Generation Me it s not all bad In fact there has been an equally impressive rise in creativity diversity and tolerance within society all traits stemming from core components of the adolescent character Howe s bold and suggestive approach to analyzing the teen in all of us helps make sense of the impulsivity driving society and encourages us to think anew about civic reengagement

[The First Resort](#) Matthew Smith, 2023-01-17 Social psychiatry was a mid twentieth century approach to mental health that stressed the prevention of mental illness rather than its treatment Its proponents developed environmental explanations of mental health arguing that socioeconomic problems such as poverty inequality and social isolation were the underlying causes of mental illness The influence of social psychiatry contributed to the closure of psychiatric hospitals and the emergence of community mental health care during the 1960s By the 1980s however social psychiatry was in decline having lost ground to biological psychiatry and its emphasis on genetics neurology and psychopharmacology The First Resort is a history of the rise and fall of social psychiatry that also explores the lessons this largely forgotten movement has to offer today Matthew Smith examines four ambitious projects that investigated the relationship between socioeconomic factors and mental illness in Chicago New Haven New York City and Nova Scotia He contends that social psychiatry waned not because of flaws in its preventive approach to mental health but rather because the economic and political crises of the 1970s and the shift to the

right during the 1980s foreclosed the social changes required to create a more mentally healthy society Smith also argues that social psychiatry provides timely insights about how progressive social policies such as a universal basic income can help stem rising rates of mental illness in the present day **Sociology of Religion** William A. Mirola, Michael O.

Emerson, Susanne C Monahan, 2015-09-16 A reader that seeks to explore the relationship between the structure and culture of religion and various elements of social life in the U S Sociology of Religion A Reader 2e is ideal as either a standalone reader or supplement to the text written by the same author team Why Religion Matters Based on both classic and contemporary research in the sociology of religion this reader highlights a variety of research methods and theoretical approaches It explores the ways in which religious values beliefs and practices shape the world outside of church synagogue or mosque walls while simultaneously being shaped by the non religious forces operating in that world Schooled to Order : A Social History of Public Schooling in the United States City University of New York David Nasaw Professor of History College of Staten Island, 1979-04-05 A significant new addition to the field of educational and social history The broad perspective and effective blending of varying historical assessments reveal Nasaw s strength as a writer and historian

Rural Communities Cornelia Butler Flora, Jan L. Flora, Stephen P. Gasteyer, 2016 This book examines how America s diverse rural communities use their various capitals to address the modern challenges that face them Each chapter opens with a case study of a community facing a particular challenge and is followed by a comprehensive discussion of sociological concepts to be applied to understanding the case *The World of Work* Robert Dubin, 2017-06-26 This book first published in 1958 concerns American industry and commerce and is devoted to what people do while they are working and reasons for their behaviour This volume should prove valuable as an attempt to make systematic sense out of work in our industrial world The balance of fact and theory is useful to those interested in understanding this complex world of working behaviour and will be of interest to students of human resource management **Dear Mrs. Roosevelt** Robert Cohen, 2003-10-16

Impoverished young Americans had no greater champion during the Depression than Eleanor Roosevelt As First Lady Mrs Roosevelt used her newspaper columns and radio broadcasts to crusade for expanded federal aid to poor children and teens She was the most visible spokesperson for the National Youth Administration the New Deal s central agency for aiding needy youths and she was adamant in insisting that federal aid to young people be administered without discrimination so that it reached blacks as well as whites girls as well as boys This activism made Mrs Roosevelt a beloved figure among poor teens and children who between 1933 and 1941 wrote her thousands of letters describing their problems and requesting her help Dear Mrs Roosevelt presents nearly 200 of these extraordinary documents to open a window into the lives of the Depression s youngest victims In their own words the letter writers confide what it was like to be needy and young during the worst economic crisis in American history Revealing both the strengths and the limitations of New Deal liberalism this book depicts an administration concerned and caring enough to elicit such moving appeals for help yet unable to respond in the very

personal ways the letter writers hoped *Reframing Adolescent Research* Leo B. Hendry, Marion Kloep, 2018-08-06 How can we ensure that adolescent research is really assisting the optimal developmental transitions of young people now and in the near future Reframing Adolescent Research suggests that what is needed is a paradigm shift a movement towards implementing more systemic innovative and inter disciplinary approaches to youth research which are more suited to resolving the real issues that young people face in the twenty first century Contributions from world class academics examine theoretical concerns and methodological challenges to substantive areas in the field considering possible limitations and weaknesses in current approaches They argue for the need for unorthodox systemic inter disciplinary research which looks beyond the social sciences to consider innovations and novel approaches to the study of adolescence and development across the lifespan New theories methods and interventions are presented that are essential to advancing the project of understanding adolescents and how they develop on a global stage This ground breaking volume will encourage debate and dialogue on the future of youth research It is valuable reading for advanced students and researchers in adolescent development and developmental psychology *The Prime of Life* Steven Mintz, 2015-04-07 Steven Mintz reconstructs the emotional interior of a life stage too often relegated to self help books and domestic melodramas He describes the challenges of adulthood today and puts them into perspective by exploring how past generations achieved intimacy and connection raised children sought meaning in work and responded to loss New Research on Social Perception John A. Zebrowski, 2007 The contemporary concept of social perception is considered to be an umbrella term that includes various other traditional and related phenomena such as person perception impression and attitude formation social cognition attribution stereotypes prejudice social categorisation and social comparison and implicit personality theories This book presents research on social perspectives and behavioural responses which follow These include child perceptions social class issues perceived attractiveness theories occupational prestige and related communication factors *Crime and Disrepute* John Hagan, 1994-02-14 Advances a new sociology of crime and disrepute that focuses on the criminal costs of social inequality Connects the diversion of capital away from distressed communities in the U S to increased violence and lack of social mobility for disadvantaged groups which result in the development of deviance service centers and ethnic vice industries Shows the important link between crime in the streets and crime in the suites and the differences between the two including punishment Handbook of Symbolic Interactionism Larry T.
